

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

LEPTOTES UNICOLOR

Origin: Brazil & Argentina

Temperatures: Hot to cool growing small size orchid species

Light: Bright light

Watering & Fertilizing: Regular watering and fertilizing year-round.

General care: Cute small size orchid species with terete-like short leaves and quite large blooms, easy to grow and perfect for miniature orchid beginners. Grows best under hot to cool conditions, in bright shade or bright indirect light, good air movement and good humidity letting dry out between waterings – you can grow it as your Cattleya species. It prefers cooler winter temps and kept drier in the winter time. Can be grown potted or mounted. Great plant for terrariums, vivariums, indoor growing on windowsills or greenhouses and outdoors in proper zones.
