

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

OBERONIA SEIDENFADENII

Origin: Taiwan

Temperatures: Cold to warm growing small size orchid species

Light: Bright shade

Watering & Fertilizing: Regular watering and fertilizing year-round letting slightly dry out.

General care: Oberonia species are always among our favorite – and this one is brand new miniature species from Taiwan where it grows on tree trunks covering large surfaces of the tree. Grows best under cool to warm conditions, in bright shade, good air movement and high humidity but letting always dry out between waterings. Can be grown potted or mounted, prefers mounted with little bit of moss only. Great plant for terrariums, vivariums, glass orbs, vases, greenhouses and outdoors in proper zones.
