MICRO, MINIATURE AND SMALL ORCHIDS

## PLEUROTHALLIS / SPECKLINIA SERTULARIOIDES

**Origin:** Central America

**Temperatures:** Warm to cool growing creeping miniature size orchid species

**Light:** Bright shade

**Watering & fertilizing:** Regular watering and fertilizing year-round, high humidity and good quality water.

**General care:** Amazing and uncommon miniature Pleurothallis species size orchid for any beginner. Bright shade, high humidity, letting only slightly dry out between waterings. Great for Florida outdoors growing year-round, indoor growing, windowsills, glass orbs, terrariums, vivariums and frog encounters. Spikes many times throughout the year.
