

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

STEREOCHILUS ERINACEUS

Origin: Asia

Temperatures: Warm to hot growing miniature size orchid species

Light: Shade

Watering & fertilizing: Regular watering year-round.

General care: Cute miniature / small size orchid species with surprisingly large blooms that are very nicely colored, yellow and pink, little fuzzy too. Vanda like growing habit makes them best grown mounted - also for the bloom display, spikes will be cascading downwards. Fairly easy orchid to grow is great for beginners. Grows best under hot to warm conditions, in bright shade, likes bright shade, good air movement and drying out between waterings. Great plant for terrariums, vivariums, glass orbs, vases, windowsill growing, greenhouses and outside in proper zones.
