PAVING UPDATE

Due to the rain today, Friday, September 29th, micro surfacing has been postponed and will occur as follows:

Monday, October 2nd – Lanes will be cleared of debris in the morning and micro surfacing will begin mid-morning (approximately 10:00 a.m.) through early afternoon.

Tuesday, October 3rd – Second coat will be applied beginning mid-morning (approximately 10:00 a.m.) and through the afternoon to allow for trash collection in the morning.

Access to lanes will be limited for a period of time (1-2 hours) after 10:00 a.m. on both days. Specific times will vary for individual Lanes.

NOTES:

-Please remove trash bins from the roadway as soon as possible after collection. If you will not be at home, perhaps make arrangements with a neighbor. If neither option is possible, indus workers will move them off the roadway if necessary.

-Please be sure that sprinkler systems are turned off on both days.

Please note that this schedule is subject to change and we will do our best to notify you as quickly as possible if changes do occur.

We are unable to provide the order in which the Lanes will be done or exact timing as this is up to the indus foreman.

Please contact any Board member if you have any questions or concerns.

Thank you.
