# THE LINES OF NATURE THE HAND OF **KLODEA**.

---

Our vocation is form. Basic, orderly, inspired by the balance of natural elements.  
Klodea's handles and finishing accessories are the interpretation of a typically Italian artistic language.

They lend an unprecedented lightness to the gentle, well-defined lines of their components.

Tradition is, for us, a launching-pad for the achievement of new creative ideas.

We instil in our work the dream of pure and accessible design, the search for a form that implies a meaning.  
Vision and action are intimately linked in Klodea's products, the expression of beauty and ergonomics combined.

A constant aspiration to elegant and functional design is the distinguishing mark of our group and its products.

Klodea is the formal expression of quality.
