dronefleet.com

DRONE Fleet Solutions

What is Drone Fleet?

Drone Fleet is designed for fleet operations of all sizes and seeks to provide business owners and drivers with the information you need to improve productivity, driver safety, and more.

Easy Access

You can stay connected to your fleet operation's vehicles on any device. On desktop or tablet, login to DroneFleet.com. On mobile, use the award-winning DroneMobile app.

Trip Detail

Drone Fleet's trip reporting will help you view the route a vehicle has taken, with detail that includes GPS breadcrumb trail, miles driven and trip length in time.

Real-Time Alerts

Drone Fleet gives you real-time alerts for speeding, idle time, geofence violations and after-hours driving.

Vehicle Health Monitoring

Set scheduled maintenance reminders and monitor your fleet's mileage to avoid unexpected maintenance and repair costs.

The Dashboard

The Drone Fleet dashboard provides you with the tools you need to stay connected to your fleet:

The DroneMobile 4.0 App

Your Drone Fleet can also be accessed using the DroneMobile smartphone app for iOS and Android devices. Receive instant push notifications when your configured alerts are triggered so that you stay on top of your fleet.

Welcome Home

In the DroneMobile 4.0 app, your new home screen is a customizable dashboard to show you what matters to you.

- See your vehicles' status and location at a glance
- Monitor vehicle health to prevent costly, unexpected maintenance
- Customize your dashboard

Simple Control

Locking your doors and remote starting your vehicle has never been easier and faster. If your DroneMobile system is connected to a remote starter or alarm, you can access controls from nearly anywhere within the app.

Set Custom Alerts

You don't have to login to our desktop portal anymore to update your geofence, speeding, and curfew preferences. These are now all updatable within the app.

The Hardware

Every Drone Fleet system is powered by the DR-5400 LTE module. This module has built-in cellular and GPS antennae for high availability and lightning fast communciation speeds.

DR-5400 LTE Add-On

- For U.S. customers only
- Powered by AT&T LTE Network
- On-board GPS & cell antennas
- Includes module & harness
- Compatible with all Firstech, iDatalink, iDataStart, and Mid City controllers
- 30-day Basic free trial
- 1-Year Drone Warranty

Install the DR-5400 as a ...

Tracking Solution w/ DR-HRN-3KHW Hardwire Harness

Remote Start + Tracking System w/ FT-7200S-CONT

Remote Start + Security + Tracking System w/ FT-7000AS-CONT

Additional Supported Features

Starter kill, glass-break detection, tilt detection, impact detection, backup battery, vehicle-specific firmware integration, OEM-grade installation t-harness for remote start, keyless entry, alarm alerts.

FAQ's

What is DroneFleet.com?

DroneFleet.com is a web solution for connecting to the vehicles on your Drone account. For Drone users with a Business or Business Plus subscription, DroneFleet.com provides additional reporting tools for improving the efficiency and visibility for fleet operations.

How much does DroneFleet.com cost?

DroneFleet.com requires an active Drone subscription. Users with any level of subscription (Basic/Premium/Business) can login to the website. However, to access certain tracking and reporting features, a Premium or Business subscription is required.

How can I add more vehicles to my Drone account?

To add more vehicles to your Drone account, login to DroneFleet.com. Upon logging in, press the "Add New Vehicle" button and enter the serial number of the new vehicle.

Does Drone offer quantity discounts?

To inquire about promotions or quantity discounts, please contact Drone customer support at (888)820-6390 Ext 2., option 1.

What makes Drone Fleet different from other fleet tracking solutions?

In addition to the standard fleet tracking features, Drone Fleet integrates with Compustar branded remote start and vehicle security systems. This gives you the ability to not just view your fleet, but now you can control your fleet from anywhere.

How do I purchase Drone Fleet?

There is no one-size-fits-all control/tracking solution that will work on 100% of vehicles, so we highly recommend contacting your local authorized retailer to confirm your vehicle's compatibility or reaching out to us directly for more information.

Drone Fleet is available at 2000+ retailers across North America. From Anchorage to Miami, Compustar trains thousands of installers every year across the continent to safely install our remote start and security systems.

Does Drone Fleet offer software intergration?

Yes! Drone Fleet has an API platform that enables integration with your 3rd party applications. Please contact us for more details.

What is Drone Fleet's warranty policy?

The Drone Fleet module has a Limited Lifetime Warranty for all devices that are subscribed to a Premium, Business, or Business Plus plan.

How can Drone Fleet streamline my business operations?

Drone Fleet's reporting solutions give you a detailed view into how your fleet is being used, enabling you to optimize your fleet operations which can help decrease fleet operational costs.
