ORGANIC
Certification

Renacer has a long-term commitment to the environment and sustainable production.

In 2018, the winery began the process of conversion of all of its own vineyards to organic, ending in early 2021, at which point the winery was also certified, allowing the production of organic wines from this harvest onwards.

Perdriel Estate, Luján de Cuyo

Own vineyards in Perdriel, Luján de Cuyo, south of the Río Mendoza River. 17 hectares with organic certification.

An organic wine is a wine
made from organic grapes.

To be eligible for this certification must be guaranteed:

- organic soil management improving soil fertility and biodiversity,
- mechanical and/or manual weed control,
- that no chemically synthesised products are used to manage diseases or pests are not used to manage diseases or pests,
- traceability and separate handling of organic grapes in the winery.
- the use of organic inputs in the production of these such as yeasts,
- reasonable use of sulphites
- use of labels, caps, capsules free of heavy metals and eco-friendly corks.
