TASTING NOTES

This wine has a ruby red colour with violet hints. In the nose, it is intense and complex. Notes of menthol, herbs such as fresh parsley, tomato leaf and a very characteristic touch of orange peel are behind the predominant fruits such as plums and strawberries. On the palate it is sweet, juicy and with soft tannins. Fresh and lingering finish.

ReNacer

Founded by Patricio Reich, with the collaboration of world-renowned winemaker Alberto Antonini, Bodega Renacer prides itself in bringing consumers the very best wines from South America's unique terroirs. The winery structure itself is quite impressive, featuring a medieval tower built of rocks with state-of-the-art winemaking equipment. Renacer's vineyards are located in Perdriel, a unique zone in Mendoza, Argentina, where the soil, altitude, climate and water come together to create the perfect growing environment for Malbec. In addition to Renacer's more than 35 hectares of Malbec vines, the winery also purchases grapes from local producers in order to take advantage of Mendoza's many terroirs – those in the Uco Valley, Lujan de Cuyo and Medrano.
