

TABOADELLA

1255

Encruzado, also known as Salgueirinho, is an endemic grape variety from the Dão region. Cultivated in the sheltered highlands of Taboadella's vineyard, in granites that have metamorphosed over hundreds of thousands of years, this lot of wines shares the special care taken with the Encruzado grape variety. The delicate cultivation of the Encruzado vines requires increased attention during the growing season, delivering tremendous rewards - the wine is firm and exuberant, with a silky texture, linear structure and notable depth. It is a wine of the present and future.

2020 HARVEST

From 8 September to 3 October
Spring began earlier with initial signs in January and February. The technical team took the right decision to delay the vegetative cycle. The vines were only pruned in March, thereby preventing production losses caused by the late April frosts in the Dão demarcated wine region. There was higher than normal rainfall during the spring period, which had the positive impact of restoring necessary water levels in the soil and thereby ensured perfect development of the remaining vegetative cycle. The summer was hot anticipating the harvest. Balanced maturation, very concentrated musts. This harvest proved to be generous in quantity and quality of the grape. We were able to create unique wines based on our technical work and knowing how to wait for the right moments, in the search for the best natural balance, combined with careful control of the phenolic ripeness of the grapes. The precision, complexity, concentration and generous fruit, combined with the elegance and fluidity of the musts, enabled us to produce wines with a profile and richness that reflect our unique terroir.
