Premier Furnace Specialists, Inc.

Heat Treating Furnace Systems
Batch - Continuous - Custom -
Rebuilds - Maintenance -
Relocation - Inspections -
24 Hour Emergency Service

April 2023 NEWSLETTER

The Premier Furnace Specialists newsletter is a new way to stay informed of all the featured and new products we manufacture to better serve our customers.

Not only will you find the latest and most innovative products but you will find the dates and locations of conferences and training sessions nearest to you so that you can stay up-to-date on the products that you work with the most.

At Premier Furnace Specialists Inc, we pride ourselves in providing the most reliable, competitive source of equipment, component parts and solutions to your thermal processing problems. Whether it's a new system, restoration, installation, maintenance, inspections, 24-hour emergency service or even a relocation, please don't hesitate to reach out with any questions or comments and let us show you that we truly are Premier Furnace Specialists.

Thank you!

Premier Spotlight

Spring has arrived! A time for growth and renewal. Here at Premier, we have grown into a 40,000 sq ft facility to accommodate your custom projects. We also have the newest/ latest manufacturing equipment to ensure the best quality products whether it be NEW furnaces or spare parts. We have hundreds of items in stock and most are built in-house to save you on cost and lead time. Please visit our websites premierfurnace.com or beavermatic.com for any New/Used equipment and service needs.

APRIL FEATURED PRODUCTS

30x72x36 Box Temper Furnace

As an Original Equipment Manufacturer, Premier Furnace Specialists fabricates a wide variety of furnaces and related equipment for the heat treatment industry.

We recently built a large Box Temper Furnace for a customer that is phase 1 of an entire IQF line. It has a max load capacity of 5,000 lbs. And a max temp of 1250°F. This was designed and tested in our new 40,000 sq ft facility.

In keeping with current industry trends, the furnace has been designed to include all the necessary features required for strict compliance to current AMS 2750 standard.

If you would like more information about this or any of the products we manufacture, please contact sales@premierfurnace.com or 248-596-9000. Being a smaller company, we produce the absolute best quality to make sure your equipment stays durable and resilient for the long haul. Everything we build is custom to meet your spec and is not done from a cookie cutter approach. We can offer more flexible pricing and lead times.

For parts and/or service call: 248-596-9000 | www.premierfurnace.com | sales@premierfurnace.com
