## E-MAIL

We only received three requests to publish e-mail address. So either there isn't much interest — or you haven't gotten around to sending us yours. However — here are the three.

Fred and Mary Ann Broddrick

[mawreath@jps.net](mailto:mawreath@jps.net)

Pat and Leslie Keene

[lkeene@inreach.com](mailto:lkeene@inreach.com)

Norm and Doris Ostrander

[ndostran@pacbell.net](mailto:ndostran@pacbell.net)

And Pat and Lela's e-mail addresses are in the information box about the *Byte*.

## TWO NEW CAPTAINS ON THE MVFD

Captain Devery Minor

I would like to announce the promotion of two of my firefighters to a captains position.

The first comes with ten years service as a volunteer and the first female captain in our department. Jean Pearson has shown the professional capability to do well in her new position.

The second new captain is George Kellison. George has been with the department for seven years. He was with us for two years and then served his country during the Desert Storm War and upon returning home he rejoined our fire department.

Both Jean and George have seen a lot of "water under the bridge" and are great assets to our community.

Congratulations and good luck to both Jean and George, and thank you both for making this commitment.

## MVFD BOARD NEWS

Leslie Keene

The Spring Spaghetti Feed was a HUGE success, raising more funds for the fire department than any previous spaghetti feed! Many thanks to all of the community who joined us at this fund raiser (and be sure to look forward to another one at the end of September!) It sure was fun and I look forward to seeing you all again at our other fund raisers this year.

Speaking of which, I hope you are all looking forward to the Annual Firefighter/Community Picnic being held on Saturday, July 17<sup>th</sup> at the "Point" at the Finnon Lake camp-

ground. This event gets better and better each year and this year will be no exception! See you there! (You can find me overseeing the Wine and Beer Garden!) By the way, those of you who like our t-shirts and sweatshirts, we are offering a variety of sizes and colors at the picnic, stop by and do some shopping!

It is with a great deal of personal regret that I announce the resignation of Doreen Frazier from the Board of Directors. She has been on the Board since December, 1993, serving as Vice-President in 1994. Her decision was personal and will be respected by all. We will miss her fundraising capabilities for sure, the Spaghetti Feed success mentioned above was under her chairmanship. I know for a fact that she continues to support the MVFD, and will remain active as one of the department's Safety Officers. At their Board meeting of June 3<sup>rd</sup>, the MVFD Board of Directors appointed Rosemary Callahan to fill Doreen's slot. Rosemary will fill this position, as a Community-at-Large representative, until the November election.

Our next Board meeting will be held on Thursday, July 1<sup>st</sup> at 7:00 p.m. at the fire station. Please feel free to join us! This will be the final planning meeting before the picnic and everyone's input is encouraged and welcome!

**Final Town Hall Meeting  
for Community Action Plan Project  
Presentation of Final Report  
Saturday, July 10<sup>th</sup> ..... 10 am - 12 noon  
Mosquito Volunteer Fire Station**

## NEWS ON THE HILL

Jo Thomas

Can you imagine going to the South Pacific and visiting Tahiti, and Bora Bora? Sounds pretty exotic to me, but that's just what lucky *Dick and Darlene Rood* did this spring. Can't you just picture them relaxing and swimming in that crystal clear water, and then relaxing some more.

Now if your family is a tad younger, you might want to do something a little more exciting like, say, visit Disneyland, Legoland and Universal Studios. And that's exactly what

Published Monthly by the Mosquito Volunteer Fire Department

*Devery and Debbie Minor* did. They packed up the whole family, even threw in a friend or two, and headed to southern California where they also toured the Boraxo facility. Now Debbie and Devery, this is just a rumor mind you, but word is that *Devin Hern*, son of *Todd and Kelly Hern* and *Ralph and Sharon Hern's* oldest grandson who's going on 2, was noticed observing Marjorie's belly button while they were playing in a wading pool. (And by the way, *Marjorie Minor* just had her 3<sup>rd</sup> birthday last month)

A recent California Retired Teachers Association monthly luncheon honored a number of retired teachers who have lived for more than nine decades and taught during a good portion of that time. One such honoree was 97 year old *Eva Morton Bliss*, who at the age of 5 attended the one-room Mosquito School on Mosquito Road. She said it was necessary for her to begin her education early because they needed a minimum number of students to keep the school open.

Speaking of teachers, *Bob and Joyce Davidson* (she's also a retired teacher - twice) were fortunate to visit Scotland where they found their namesake, a suburb called Davidson's Main. Long, long ago this used to be a meeting place for shepherders and was nicknamed "Mutton Hole". While in Ireland they looked up a distinctive location called "the Joyce Country", which Joyce is named after. The rest of the trip was spent in England touring World War II air bases, Bob having served in the Air Force. After three weeks Bob returned home, but Joyce spent another three weeks with a group called Global Volunteers. She was assigned to a small fishing village in Spain where she spoke English to 3<sup>rd</sup>, 4<sup>th</sup> and 5<sup>th</sup> graders. She said everything was so clean and ultra relaxed. So relaxed in fact that if the regular teacher was a half hour late because she was getting her hair done, the children just waited for her to come open up - no big deal. Just a couple days before she was scheduled to come home Joyce tripped and unexpectedly found herself on the ground. Certainly hope you are recuperating and getting back to normal, Joyce.

Did anyone happen to hear those wedding bells ringing for *Bob Smith and Linda Gieseler* Belated congratulations and very best wishes to you two.

And last but not least someone named *Barbara*, another retired teacher whose last name starts with an A (as in *Atkins*), celebrated a rather important birthday. Not the 55<sup>th</sup> when one qualifies for senior discounts at Taco Bell & Denny's, not the 60<sup>th</sup> when one could get the senior discount on movie tickets, but the 65<sup>th</sup> when one becomes a government certified senior citizen qualified for Medicare. We should all be in such great shape at 65, Barbara.

PHONE BOOK UPDATE

As always, when we publish the phone book every other year, we either miss people — or they move here, or move away, a week after it goes to press! From time to time we will be putting updates in the *Byte*, so be sure and copy them to your phone book.

NATIVE PLANT CLASSES

Virginia Feagans

Are you considering using native plants in your landscape? The El Dorado Chapter of the California Native Plant Society and the Master Gardeners have some help for you! We are offering a comprehensive series of three classes on "Landscaping with California Native Plants". Classes will be held in Placerville on Saturdays, September 11, 18 and 25 from 1 - 4 PM. Taught by area professional landscape designers and architects, the topics covered will include: principles of landscape design, developing your site plan, native plant selection for various situations (sun/dry, shade/moist, rock gardens, butterfly habitat, ponds/riparian), native plant communities and planting and maintenance. The cost is \$25 in advance and includes registration for all three classes, textbook, and materials. Space is limited, so please register early. To request registration information, please call Virginia Feagans at 626-1469 or Amy Hoffman at 621-4568.

THANKS TO THE COMMUNITY

Once again the Smith-Vogele Family says thank you to this wonderful community. Your prayers, positive thoughts, phone calls and cards were greatly appreciated. They truly helped Hazel in her recovery.

MOSQUITO KIDS CORNER

Deborah Arsenych

Three 4.0 Students

The grades are out and the winners are in. I get such a good feeling when I'm sitting in the audience at Markham School and listening to the names of the outstanding students being announced. I watch as our kids, the Mosquito Kids, walk to the front and accept their awards. They are shy, but proud, as each one receives their medal, ribbon or paper award. They have worked hard.

The Principals Honor Roll recipients are Marie Beckett, Amey Searcy, Amanda Susmill, Rex Hays, Amanda Pearson, Ryan Poarch, and Jonathan Skaggs.

Those making the Scholastic Honor Society are Caroline Veerkamp, Elizabeth Frazier, Daniel Norman, and Ashley Levine.

Our three straight A students with a 4.0 are Stanley

Okumura, Zoe Arsenych and Stephen Loree.

Receiving their EM Awards were Elizabeth Frazier, and Stephen Loree. These awards are given to students with more than 225 points obtained from participating in sports, school politics, citizenship and being an all around good student.

Outstanding students are chosen by their teachers. They are the best of the best. In the Sixth Grade the award for Outstanding Student in Reading went to Stan Okumura. The Outstanding Student in Language Arts Award went to Caroline Veerkamp. In the Seventh Grade the Outstanding Student in Girls Physical Education went to Zoe Arsenych. The Outstanding Student in Boys Physical Education went to Stephen Loree. The Outstanding Student in Yearbook/Journalism went to Zoe Arsenych and the Outstanding Seventh Grade Citizenship Award went to Zoe Arsenych.

At El Dorado High School, the Award for Social Sciences went to Scott Sherman. At the Elementary School level, the Golden Star Student Award went to Adam Minor for his personal success during the 1999 school year.

Brian Okumura received the MVP Award in the 1999 All-league Sierra Valley Golf Conference.

My personal favorite award went to Carlos Galvin for celebrating 100 tumor-free days as he walked in the Relay for Life at Ponderosa High School.

What can I say? These kids are special. They have a drive to do their best in anything that they attempt. If you see these kids give them a hug or a handshake for a job well done. They are our future.

As far as summer activities, I know that Stephen Loree is playing baseball for the Dodgers. Dorothy Alexander is going to cheerleading camp and the Sugar Loaf Camp. Zoe is doing her thing with volleyball at the UC Davis Tournament at the end of June. It is the biggest women's event held in the world. With 9,000 screaming girls and 6,000 parents at the Arco Arena for the kickoff, it is even bigger than the Junior Olympic Volleyball Tournament held in New Orleans this year. After that she plans to go to the Volleyball camp at UC Santa Cruz at which time her parents will take a break.

One thing that concerns me and should every person that lives in the area. Kids have been seen driving on the roads. These kids don't have their license and their wasn't a parent in the car with them. The roads in the Mosquito Area are not private roads. Please talk to your kids. Let them know what they can loose and what the parents can lose if their children are caught driving or, heaven forbid, are in an accident.

SCPOA COMMENTS

Deborah Arsenych

There was a regular meeting on June 19, 1999. I'll have a synopsis of the meeting in the next *Byte*.

There are two companies in the Swansboro Area clearing brush. The company hired by SCPOA is instructed to remove all brush that they cut. The other company was hired by

PG&E. If you see brush being left by the side of the road call PG&E not SCPOA as our company is monitored daily by the SCPOA Board Members.

COMMON AREA UPDATE

Barbara Atkins

As I'm sure you all can tell by the looks of things we have a new maintenance man. His name is Paul Hinds who is familiar to a lot of you as he has lived in the area for some-time. You have probably seen his green and brown Jeep with SCPOA written on the side door parked at the work place. Paul has been very busy getting things back in order and working on making the common areas a place that we can be proud of. When you see him you might want to give him a word of encouragement!

There are now new garbage cans placed at all areas so it will make it easier to keep picnic trash picked up and disposed of. We all need to do that little extra pick-up to keep things looking good.

Remember if you plan to use the pavilion for a get-together call the SCPOA secretary and give her the day you plan to use it, this way you will have the space for your use.

COME TAKE A LOOK: We have several old office type chairs, arms and swivel seats, two old lounge chairs which we would like to give FREE to anyone who would like them; you can contact Mel Joyner.

We're considering some volunteer work projects and will keep you posted as to what-where-and when.

HOORAY FOR VOLUNTEERS

Evelyn Potter

In our beautiful community we have many wonderful people. People who work hard in one way or another. People who "ferry" kids to town and back for school or related activities. People who stay available to friends and/or acquaintances who need a ride, help with a chore or just need a little company. We have hospital volunteers. In one way or another, this community has more volunteers than many of us are aware of.

We have our WONDERFUL Volunteer Fire Department composed of approximately 25 volunteers led by Chief Leo Chaloux and Battalion Chief Devery Minor. And then we have the GREAT bunch known as "The Support Group." These people do everything to help; baby-sitting (for the volunteers' children during an incident), controlling traffic, manning the station radios, fixing food and whatever else is needed to support the volunteers. These are ALL people we don't want to do without.

And then we come to the volunteers who do all that is necessary to get our *Mosquito Byte* to us. The two ladies who do all of this for us use their own time and equipment and ingenuity so that we can keep up with the latest goings-on in

Mosquito. And last, but never least, are the contributors to the paper. They, too are volunteers and we appreciate and enjoy their articles.

I have mentioned only two names in this article for a reason - I cannot begin to name everyone involved, so I decided to name no one. But Leo and Devery are rather special. They do their 8 to 5 jobs and a lot more!

Three cheers for VOLUNTEERS !!!

**FINNON LAKE  
PLANNING COMMITTEE**

Diane Brady

The Finnon Lake Planning Committee (FLPC) met on June 20, our usual third Sunday of the month meeting. But this time there were a few things that were unusual: primarily, we obtained the permit to cross the road with our waterline! Finally, after many years, there will be EID water at Finnon Lake, which will make the health department very happy! Now that we have county approval to finish laying the pipeline, we are concentrating on lining up the people who will be doing the work. After all the time we've been working on this project, even a small victory like this seems to be cause for major celebration! Much thanks go to Debbie Minor for all her hard work on getting this accomplished.

We do not yet have a building permit for the restaurant remodel, but we are getting closer in that area as well. We are now at the point of trying to obtain building supplies, and we would be most grateful to anyone who could help us out with donations in that area. We need things like 2x4s, sheet rock, and linoleum. Please call me at 622-7019 if you know of any source where we could obtain these things cheaply, or better yet, free!

The dam rebuild is also progressing, as the engineering work is now being completed. If our plan is accepted by the Department of Safety of Dams, work may be able to start as early as next spring. Naturally we are all looking forward to the day when we will have water in our lake again!

We have received several proposals from individuals who are interested in operating the restaurant. We will be discussing the proposals at our next Board meeting on July 1. Anyone who is interested in attending the Board meeting is welcome, but beware that we will try to put you to work! As always, anyone who is interested in getting involved in this project would be warmly welcomed, and you may call me at any time with ideas, suggestions, or offers of assistance. We are going to make this happen!

**MOUNTAIN FELLOWSHIP**

Mountain Fellowship is currently meeting Sundays at the Koberle residence at 7069 Maidu Drive. Effective Sunday, July 4, 1999, Mountain Fellowship will be meeting at the Galvan residence at 3342 Stope Drive. Sunday School starts at 9:30am and our Celebration service starts at 11am. Everyone is welcome. Call Chuck at 621-4282 for more information.

**AIRPORT VANDALISM REPORTED**

Recently we had some damage done to an aircraft parked in the parking area at the east end of the runway. Some kids were heard and seen walking away from the aircraft around 11:30 p.m. Footprints were found all over a wing and the right aileron was bent. There was also spilled beer and a beer can on the ground. It is unlikely that anyone was trying to cause damage intentionally, but rather the damage resulted from playing around. Now the owner is faced with an expensive repair bill and is unable to fly the airplane. Tampering with an aircraft is not just vandalism but is a federal offence. If the damage is not seen before take off, a crash could occur possibly resulting in the death of the pilot, passengers and people on the ground.

Another incident involved some younger kids who were at Dyer Lake swimming and then came close and stood behind an aircraft that was running up prior to take off. They were standing in the wind created by the prop. This may sound like fun, but the propeller wash also picks up small rocks which can be blown at high speed and if they strike an eye could cause serious injury. These same kids then went up to one of the parked aircraft and were seen turning the propeller. Under some circumstances the engine may turn over if the propeller is moved. If the engine should start the propeller would turn very rapidly. Needless to say this could cause serious injury or even death to anyone standing in the propeller arc.

The airport is not the place for unattended children or Saturday night parties. There are too many opportunities for accidental injury or damage. Anyone who is interested in the airport or airplanes should contact one of the many pilots who would be happy to give information or show off an aircraft. Otherwise look from a safe distance and please don't touch!

**ARE YOU HUNGRY?**

Peggy Vogele

This is a great breakfast to do for a brunch or if you are going to have a special breakfast!

**BREAKFAST OF CHAMPIONS**

Lightly butter a 9" x 13" x 2" baking dish

Butter 10 slices of Sour Dough French Bread and cut into cubes

Put in baking dish and set aside.

Cook 2 lbs. bulk sausage until it changes color, then drain.

Arrange sausage over bread, then add 1 1/2 c. grated cheddar cheese

Salt and pepper to taste.

In a mixing bowl, beat 6 eggs and add 3 c. milk.

Pour over bread, sausage cheese mixture. Cover with foil and refrigerate overnight. In the morning, top with 1/2 c. grated cheddar cheese. Bake, uncovered, in a 350° oven for 35 to 45 minutes. Let stand 15 minutes before serving. Cut into squares. Serves 8 to 10.

SUMMER IS HERE I

Jim Hinds

Monday, June 21<sup>st</sup> and it is a wonderful day to do this article. First, this is the first day of summer as of 12:49 PM, our time. Second, our Sun has reached its most northerly position of 23° north latitude. This will allow the rays from the Sun to shine more directly on those of us who live in the Northern Hemisphere, thereby warming our end of the globe, while the Southern Hemisphere begins its winter season due to the lack of sunlight. Now if you do not believe this, keep a sharp eye on the weather reports for the next two or three months.

On this day it was reported to be 94° in Sacramento with a promise of over the century mark coming soon. The warmest recorded to date at my location, since last summer, was today with 79°. I suppose the rainfall totals might be of some interest although we have been very short of rain the past month or two. We had 46.03" of rain so far this year and June is going to be short, I hope. You see, I am having new roofing put on my place and I'm pretty exposed at present. Maybe the rain will pass me by for a little longer.

In checking sources, I ran into some interesting material in *World Atlas Hammond, 1965*. We all are traveling around our Sun every 365 days, 23 hours, 56 minutes and 4.1 seconds and have been doing so for some four and one half billion years. This trip or orbit is 595,000,000 miles and our speed is 66,600 miles per hour. This figure is subject to change due to tidal forces which may be slowing things down a bit. Also, new techniques and improved instruments give better and more accurate measurements. 1965 was a long time ago when we consider all the progress that is being made in this area today.

Another factor that affects us is that our polar axis is tilted toward the Sun by 23.5° and, of course, this gives us our change of seasons and the length of our days and nights. Speaking of nights, this is a wonderful time of year to go out and see what the night sky looks like. Take a telescope or field glasses outside, get comfortable, and enjoy your beautiful dark skies.

The answer to the June puzzle is  
 "Mosquito Fire Departments Chief."

Mountain Fellowship

Vacation Bible Day Camp

We'll have a great time July 12<sup>th</sup> through 16<sup>th</sup> at Finnon Lake Resort 9:00 a.m. to noon. We'll have crafts, songs and fun.

PUZZLE

Peggy Vogele

This month the puzzle is about FLOWERS. Circle the words reading them up, down, forward, backward or diagonally. The remaining 9 uncircled letters create the answer.

If no answer, please leave message. Will return calls ASAP.

HERBS: Evergreen Herb Garden, 2001 Swansboro Road. Herbs, herb classes, products, plants and books. Call or write for information. 626-9288.

---

# MOSQUITO VOLUNTEER FIRE DEPARTMENT ANNUAL PICNIC

Saturday, July 17<sup>th</sup>, 11:00 a.m. to 5:30 p.m.

Come on out for food, fun and fund raising!

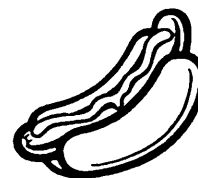

There will be games, raffles, and the ever-popular dunk tank  
New for this year: In addition to displays of fire equipment, we will have displays from Search & Rescue and maybe even the CALSTAR helicopter.

Meal prices are \$5.00 for adults, \$3.00 for children.

Hamburgers, hot links, hot dogs, salads & desserts.

Tickets for sodas, ice tea, beer and wine can be purchased separately.

Bring the whole family for a good time.

All proceeds benefit the Mosquito Volunteer Fire Department.
