

# Mosquito Byte

August 2003

VOLUME 16 #12

The Mosquito Fire Protection District announces a vacancy on the Board of Directors created by the resignation of a current Board Member. Registered voters in the District who are interested in filling this position must submit to the Board of Directors a letter stating their interest in the position and the qualities/assets they would bring to the position. Letters must be received no later than 12:00p.m. August 12, 2003. Beginning August 25, 2003, the Board will interview each qualified person submitting a letter and appoint the new Board Member at their regular meeting on September 11, 2003.

Submit a letter of interest to:

Dean Edson, President  
Mosquito Fire Protection District  
8801 Rock Creek Road  
Placerville, CA 95667

## OUT AND ABOUT

Chief Leo Chaloux

Sure has been hot lately, not really hot on just one day but really hot on a lot of days. Seems there has also been a great deal of humidity along with the heat. One reason why we all live out here in California is the heat with no humidity. Why we all run around saying, yeah it is hot but it is a dry heat. Not lately, it has been just plain humid. Kind of reminded me of being in New Jersey while in the Army. Now that place was humid, it was worse than Viet Nam and even smelled as bad.

The other day I was helping a neighbor put a pump into his well. My neighbor is Vick Garcia a real good guy who has this goofy looking dog named Bart. Now Bart is a real butt ugly dog. I keep telling Vick he needs to teach Bart how to walk backwards because then Bart would look better. Now, Bart loves to chase a ball so I brought my wife along so she could keep Bart busy by throwing a ball for him to chase. I don't know which is more amusing, watching my wife throw a ball or watching Bart

chasing it. After about an hour we got the pump into the well, ole Bart got to chase his heart out and Vick got some water.

Went for a walk last week over to Catfish Lake. Wanted to check out the Geese and what the Beaver is doing. There is a pair of Geese that seem to have made Catfish their home and they have around four to five baby Geese every year. Guess you call them Goslings. I am always curious as to how many manage to make it to summer. This past spring they had four and four are still there. The Beaver wasn't around, guess he has packed up and moved along to more watery places.

I heard that a couple of months ago the US Forest Service took down Slate Mountain Lookout. So I went up there to check it out. Yep, it is gone. To me that is a shame for that look out has sure picked up its share of fires not only in our District but also in the surrounding forest. I also thought of Roland Smith, a real good friend who worked in the lookout and had the ability to not only pick up a smoke but also tell us the road and address the smoke was on. He and that look out tower are greatly missed

Went down to Rock Creek last Saturday to do my normal check on those who are down there. Seems that no matter when I go down there is a campfire and that is what I check on, as we sure do not need a fire coming out of that canyon. One thing about Rock Creek is you never know who is down there and what are they doing. Well this time there were a couple of Bozos who had tied a rope to the bridge rail and were swinging on it aiming for the deepest hole. That is a stupid thing to be doing but then I had to consider the source. I asked them not to do it, as they would probably smack their heads on a rock. Not being a cop they just told me to pack sand and then continued on. I guess it is true God takes care of kids and fools as we did not get a dispatch for a medical call down there.

So far, so good. We are now about half way through the summer fire season and we haven't had a single wild land fire. With any kind of luck we will get through this fire season without any major losses. However, we should not be putting all our

faith into luck, we all have to be real careful in what we do outside making sure a fire does start. Please be careful, the fire season is just now getting critical.

## FINNON UPDATE

Mary Joseph

After a casual visit from the County Building Inspector, Finnon's restaurant is still well on it's way to becoming a reality. We have sinks, toilets with running water and (soon to be complete) a range hood system! We were able to get a clear list of corrections from the inspector and without delay our local carpenters were down at the restaurant fulfilling the inspectors wishes. PG&E completed their work earlier this month including giving us a taller power pole which allows RV's to access the campground. There is still some work to accomplish outside the restaurant and we hope to have it out of the planning stage and in process this month. This consists of grading and forming/pouring the concrete walkways. If anyone out there feels an overwhelming desire to lay down forms in the middle of summer, give us a call, we could use your help. I can be reached at 642-0338.

One final note: It was discovered that some individual had put a bullet hole through our air conditioning unit and damaged the coils. Does anyone have access to a replacement unit for a good price? If so, let us know. We need a 5 ton unit. Thank you.

## MVFD REPORT

Debbie Minor

Hello everyone! What do you think of all this wonderful heat?

Last month we did not have our regular meeting, as the president (me) and the vice president Ron Stone were not able to attend that night. We will however have our regular meeting in August barring any unforeseen incidents.

I want to thank all of you who helped with the Fireman's Picnic this year. It was a lot to ask of you to spend an entire day out in the heat. I thank you all very much for the commitment. Thanks to the firefighters who stayed the duration and thanks to Swansboro for letting us use the lake again this year for our event. We did not have as many people attend this year as we have in the past. I do not doubt that the weather had something to do with it.

We did however have a good crowd and all seemed to enjoy themselves. The kids had the right idea and spent almost the entire day in the water. Despite the heat, it looked as if everyone had a real good time with plenty of visiting and food to eat.

Stay cool and fire safe!

## CRAFT REPORT

Sharon Hern

A BIG THANK YOU to our community for their continued support of our Craft Sales. The Craft Sale at the Fireman's Picnic on July 19<sup>th</sup> netted a total of \$476.75. This money will be used to purchase a hand held radio for the Fire Department.

Congratulations to Sally Martegani on winning the Mosquito Fire Department Candy Jar, complete with candy and a painted picture of our new red Fire Truck on it. Thank you to Kelly Hern for making this Candy Jar.

I would also like to THANK all of the "Crafters" in our community for making all of these wonderful craft items.

Our next Craft Sale is on Labor Day, September 1<sup>st</sup> at the Diamond Springs Fire Department Labor Day Bazaar. If you have never been to this event, be sure to mark your calendar and plan to come early and enjoy shopping for everything that you ever thought you could possibly need or want.

The next craft meeting is on August 22<sup>nd</sup>, hope to see you there as we have a lot of different projects that we are working on and need all kinds of crafty help. We do hope that you will continue to help us out by working on crafts at home. We will arrange to pick up your items or have them dropped off at the Firehouse. All of our proceeds go to our Mosquito Volunteer Fire Department, so please help support your fire community.

NOTE: Change in date for September Craft Meeting has been moved to October 3. There will be 2 Craft Meetings in October.

Future Meetings:

Meetings are scheduled for the 4<sup>th</sup> Friday of each month at Darlene Rood's home

Next Meeting: August 22

Time: 9:30 - 11:30 am

Location: 2211 Swansboro Road

Dates: October 3, October 24 and November 28.

Raising teenagers is like nailing Jell-O to a tree.

## FIRE SAFE COUNCIL

The Fire Safe Council had a meeting July 19 at the Fire Station. The next step for the obtaining a Grant for fuel reduction for fire safety in our area was explained. An RFP (request for proposal) for the Fire Safe Plan is being written. About 15 people came to the meeting and Leo explained what we are trying to do and about the area that the grant will address. Mosquito and the National Forest are the areas the grant will cover and principally brush and a few diseased trees will be cleared.

## REALLY MOSQUITO

Pam Steinke, DVM

Mosquito is certainly the correct name for this area as I recently discovered while doing some clearing in Jaybird Creek. It didn't take long to be dotted with welts over my face and arms and itching like crazy.

Mosquitos are more than a nuisance, they can also cause disease. They can spread heartworms to your dogs and even your cats. Dogs are the natural host and can be infected after being bitten by an infected mosquito. The mosquito injects larvae with its bite into the dog's tissues and the larvae then migrate to the bloodstream where they hitch a ride to the heart. With enough bites the large vessels of the heart can become filled with worms and cause severe symptoms and even death. Signs to look for are coughing and exercise intolerance. Heartworms can be detected by a simple blood test. Treatment is available, but expensive, and not without risk. You can prevent heartworms in your pets by putting them on one of the several preventatives that are available through your veterinarian.

If anyone in the area has any questions about their pets they would like to have answered in this column, please contact me and I will do my best to find an answer for you. I graduated from UC Davis veterinary school in 1992, and have practiced in Folsom and Diamond Springs. You can reach me by email: [drpjjs@hotmail.com](mailto:drpjjs@hotmail.com)

## SCPOA REPORT

Kim Purcell

Our maintenance person Tod Sorrell has been hard at work at Dyer Lake. New sand has been placed on both the east and west sides of the lake, the pavilion, pump house and bathrooms all have

new roofs. Sand has also been placed on the beach area at Catfish Lake and the replacement of the old wood fence with new vinyl is continuing. The bathometric mapping process has been completed at Dyer Lake that will allow for a very precise chemical treatment of the lake to get rid of the unwanted vegetation. This is the same treatment that was used on Trout Lake last year and has yielded fantastic results. The chemical used is called Sonar and is safe for humans and wildlife including fish and should be applied the first part of August.

The SCPOA board is working on common area improvements and would like more input from the community. Included in the midyear packet is an information sheet for feedback on several possible projects. What would you like at Dyer Lake? Some suggestions have included: a walking trail around the lake with the possible additions of some workout/stretching stations and swing sets. Another idea being looked at is to build a community center/office at Dyer Lake; more information on this project will be included in the packet. We need your suggestions about Dyer Lake as well as the other common areas, please forward your inputs to the board and fill out the questionnaire when you receive it. The board is still investigating the possibility of acquiring the Dogwood well from EID as well as working out details of a meter to provide water for Dyer Lake. We need to keep the lakes full in the summer and are trying to find the most economical way to accomplish this. We are having a problem with vandalism at Dyer Lake and will have to consider some options including locking the bathrooms at night and using surveillance to catch and prosecute the individuals doing the damage.

## VANDALISM

We are having a chronic problem at Dyer Lake and other common areas with vandals causing damage. The toilets and sinks in the restroom are plugged with toilet paper and the water turned on to cause flooding. Other damage has been done to the restrooms and picnic tables have been thrown in the lake. The most disturbing incident involved nails from a nail gun that were cut into sections, twisted and thrown into the swimming area at Dyer Lake, needless to say this could cause serious injury. The damage seems to be done mostly by juveniles and is costing all of us money for repairs. We have a few possible leads as to some of the perpetrators and will be pursuing these leads. We would encourage

anyone with information on any damage done to any common area to contact SCPOA at 621-0309. We will be working with the sheriffs department to aggressively pursue those responsible and may consider locking the bathrooms at night and monitoring the area with surveillance. We would like to strongly encourage everyone to participate in protecting our common property so that we can all continue to enjoy it.

## SWEET TOOTH?

Evelyn Potter

I found this in an insert of the Mountain Democrat, so many of you may have seen it there. I made some and it is easier than regular fudge and tastes great.

### Frying Pan Fudge

2 ½ cups sugar

1 cube margarine or butter

6 oz. canned milk (I used fat free)

6 oz. semi-sweet chocolate chips

1 cup chopped pecans or your choice of nuts

1 tsp. vanilla flavoring

½ cup coconut (optional)

Chop nuts and set aside

Mix sugar and margarine in a heavy frying pan until margarine is soft (not melted), add milk and bring to a boil. Reduce heat to low and cook six more minutes, stirring occasionally. Remove from heat and add chocolate chips and chopped nuts. Stir until fudge begins to form. Quickly add vanilla flavoring. Drop fudge on wax paper with a teaspoon. Let cool. Store in an airtight container.

I am going to try this using butterscotch chips for our son who cannot eat chocolate. Will let you know the results.

The *MOSQUITO BYTE* is available by subscription and is mailed first class to subscribers. Cost of subscription is \$11.00 per year. Mail check to 2300 Mosquito Cut-Off Rd, Placerville, CA, 95667-9081. Deadline for news and advertising is the 19th of each month.

The editors reserve the right to edit, limit or refuse any article submitted for publication in the *Mosquito Byte*. The Mosquito Volunteer Fire Department accepts ads from subscribers without endorsement.
