NOVEMBER 2004, VOLUME 18 #3

CDF LIFTS BURN SUSPENSION

The Amador-El Dorado Unit of the California Department of Forestry and Fire Protection (CDF) has lifted the burn suspension that has been in place since June 7th of this year. The suspension will allow burning during fire season with a **valid burn permit as long as the Air Pollution Control District opens burning for the day**. You will need to have a burn permit that you can pick up for free from your local fire station. You must call the Air Pollution Control District immediately before burning to make sure it is a burn day and your burn piles may *not* be any larger than four foot square. Burn permits will be required until the official end of fire season which typically ends in mid-November.

Please keep in mind the following proper burning techniques:

- ✓ Call the burn information number 530-621-5897 to make **sure it is a permissible burn day, because the Air Pollution Control District still controls whether or not you can burn**
- ✓ **Never leave the fire unattended.**
- ✓ Make sure you have proper clearance cut to mineral soil around the pile(s)
- ✓ Make sure you have a shovel and hose on sight so that you can put out any fire(s) that may escape
- ✓ Do not burn on windy days, the wind can carry fire brands and set fires away from your original pile(s)
- ✓ Be considerate of your neighbors and where the smoke from your burn piles may drift
- ✓ Be aware of your surroundings, watch for spot fires and in case of an emergency, **call 911.**

EARLY CHANGE OF SEASON

Chief Leo Chaloux

Looks as though we were able to get through another summer without a large wild land fire. Seems as though we went from having a real warm Indian summer right into a wet winter and in between there were a few days of heavy smoke from the Fred's Fire in the Kyburz area. The phone rang constantly on the first day of that fire, everyone calling the station wanting to know if there was a fire in our District. I even had some individuals come to the station and ask when they should evacuate. Those that did ask about evacuation kind of disappointed me, they did not even know that signs about evacuation have been up all around the District. Fortunately, this was all a result of a fire taking place about 20 miles away.

One thing I have learned living up here on this hill for 30 years is that if you have not heard a rumor by noon, make one up. Well the latest rumor going around is that of a new bridge being built across the canyon. As far as I know that is just not true. In fact unless there is someone out there with about \$25 million in mystery money it is never going to happen. I do know the county has just barely enough money to patch about three potholes on Mosquito Road somewhere between the National Forest and US 50. We are lucky they inspect the Swinging Bridge once a

year. Of course they have to do that in order to keep Cal-Trans off their back. One thing we can be grateful for, and we can brag about it to everyone who lives in El Dorado Hills, is that not only do we live in a gated community but we live in a two gated community.

Another funny thing I have noticed on Mosquito Road are the posters everywhere stating "lost dog" and right below them are posters saying, "found dog." Don't know why but that is just funny to me.

One of the volunteer fire fighters recently asked me why we do not have as many chimney fires as we used to back in the old days. Well, now I would venture to guess that about 80% of the houses up here are heated with propane and wood is just not the fuel of choice anymore. I told the fire fighter to be patient that as the propane furnaces get older there is a good chance they will become problems and cause a fire or two. Also with propane estimated to be about 22% higher this winter than last, wood stoves may become desirable again. If you are using or planning to use a wood stove now is a good time to get the chimney cleaned and inspected. I strongly suggest that it be done a professional chimney sweep. Not only do they do the cleaning but also they know what problems to look for and can recommend the best way to get them fixed.

Be aware of the first few rains of the season. The roads can be real slippery until the oils on the road

from the summer are washed off. One thing to do is make sure you have winter tires on your vehicle but the best thing is to slow down. It never fails to baffle my mind that when we show up on a car accident on Mosquito Road and there is snow on the road the first thing someone usually says is, "I don't understand, it is four wheel drive."

The other day I was driving around the District when I noticed someone in a pick up truck stopped on the side of the road. Hanging in the back of his truck was a hunting rifle. He was looking at five bucks, three small ones and two rather good size ones, standing about twenty feet off the edge of the road. The bucks just looked at us and didn't even bother to move away. Course just to the right of them nailed on a tree was an old sign that said, "Game Reserve." Fortunately for the bucks the guy in the pick up truck could read so he just drove off.

Enjoy the change of the season and be careful.

COMMUNITY NEWS

During the recent Fred's Fire and Flood/ Mud Slide that occurred in the Kyburz and Silver Fork area, 4 local residents who are Red Cross Disaster volunteers staffed the Red Cross Evacuation Shelter in Pollock Pines from Wednesday October 13th through Wednesday October 20th. **Thank You** to Sally Bozeman, Mary Ann Haywood and Ralph & Sharon Hern for their tireless work during that week. The evacuees were most grateful for the support, shelter and meals that they received.

If you are interested in being a Red Cross Volunteer please contact the American Red Cross Office at 626-5491 in Placerville, or contact any of the above persons.

FIRE SAFE COUNCIL

Len Newell

The onset of significant Fall rains over the October 16-19 period has dampened fire danger almost to zero. Our community escaped once again this fire season from a major fire, while we were reminded numerous times about how closely our homes and lives are bound up with this fire environment in which we live. The smoke that blanketed us for three days just before the rains certainly provided a realistic reminder of it.

Evacuation Route brushing work has been slower than expected due to red flag days, other demands for tree crews, and now rain. Work will continue until completed. Our funds will be exhausted when Segments 1-3 are finished.

Thanksgiving is coming up, and in order to avoid a conflict with the Thanksgiving Day Weekend the MFSC Meeting will be held November 20, from 2-4 PM at the Fire House. Among other things we will be discussing our draft grant proposal for 2005. An Agenda will be

available one week before the meeting. If you have Agenda items to suggest, please send or call them to any Board Member.

Thanks for all that you do for fire safety in our community!

The next meeting of the Mosquito Fire Safe Council is Saturday November 20, 2:00 PM at the Fire Station. There will be no meeting in December.

SCPOA REPORT

Kim Purcell

Our normal October meeting had to be canceled at the last minute due to the lack of quorum. We did have a number of community members show up so we ended up having a community discussion. Concerns were discussed regarding the need for communication during an emergency such as a fire. The fire safe counsel is looking at several alternatives for this including the possibility of a radio broadcast. Another problem was brought up regarding barking dogs. This seems to be an increasing problem as more people move into the area. It is often difficult to track down the exact location of the dog in order to inform the owner of the problem. Anyone who owns a dog is encouraged to be courteous to your neighbors and keep them confined and indoors at night if they have a tendency to bark.

We were able to have a quorum present the following weekend so we could have a meeting to conduct some business that could not be postponed until November.

The most important issue was the need to borrow some money from our reserves in order to cover our excessive legal expenses. We are over our current budget for legal expenses by \$20,000 and needed to borrow this from our reserves to pay the bills through the end of the year. A motion was made to do this and it was passed. We will be repaying the money back to the reserve account in the next year.

We were scheduled to have work done on our roads and runway at the end of October but due to the sudden onset of winter this may end up being delayed. If the temperatures do not stay warm enough, the work cannot be done properly, so we will have to wait and see what the weather does. The pilots group has volunteered to provide both the labor and supplies to repaint the runway after it is resurfaced. This will save several thousand dollars.

Another issue that has come to our attention is related to the lack of culverts across driveways. Several places have been identified as having the potential to damage the road due to water drainage being blocked by a driveway without a culvert. Letters will be written to the individual homeowners advising them of the need to install a culvert or they will be responsible for any damage done to the road.

The water rights have been partially cleared up

regarding the Dogwood well but there are still a few questions that need to be answered. There was some discussion of the issue which will need to be continued when we get further information.

A resolution which will allow the temporary use of storage containers on properties during construction was approved and signed. This will allow the homeowner to move in a storage container to keep equipment in while the house is being built. It will have to be removed when construction is finished.

We are still in need of members willing to run for the board next year. We will have four vacancies that need to be filled.

CRAFT REPORT

Sharon Hern

Fall and Christmas decorations as well as gift items are available at our next Craft Sale at the First Baptist Church, 2600 Cold Springs Road in Placerville on November 12th, 10:00 - 6:00 & 13th, 10:00 - 3:00. Put this on your calendar and stop by to see all of the wonderful items that have been made by our "Crafters", do your Holiday shopping and support our Mosquito Volunteer Fire Department.

We do hope that you will help us out by not only coming to our craft meetings but work on crafts at home. We will arrange to pick up your items or have them dropped off at the Firehouse. All of our proceeds go to our Mosquito Volunteer Fire Department, so please help support your fire community.

Meetings:

Future meetings are scheduled for the 4th Friday of each month at Darlene Rood's home.

Next Meeting: December 10th (November meeting has been canceled.)

Time: 9:30 - 11:30 am

Location: 2211 Swansboro Road

Dates: Meeting dates for 2005 to be printed in the December issue of the *BYTE*

GEORGETOWN DIVIDE HEALTH CARE AUXILIARY

Sharon Hern

The annual Georgetown Divide Health Care Auxiliary Christmas Bazaar is scheduled for December 4th from 10:00 to 4:00 at the Odd Fellows Hall in Georgetown.

We will need the following items for the home baked sale: Cakes, Cookies, Pies, Breads, Candy and homemade Jellies. Please label the items as to their contents, such as type of pies, cakes, breads and cookies, also please include if any of the items have nuts in them and the type. These items will need to be at the **Fire House no later than 8:30 am on Saturday December 4th. We will be leaving at 8:30 for**

Georgetown. I will be happy to pick up your baked goods on Friday, just give me a call

The proceeds from this event are distributed to the 3 Fire Districts in the Divide area.. Our Volunteer Fire Department uses this donation towards medical equipment or medical supplies. So once again please support your Mosquito Volunteer Fire Department.

If you have any questions please call Sharon Hern at 626-5268.

THE WAYWARD AIR RACER

Kim Purcell

Our airport recently became the unexpected destination of a tired and off course air racer. I received a call from my neighbor, Jo Thomas, about a white bird that was hanging around outside her house. He seemed unafraid of people and had bands on his legs. After several bribes with food we were able to catch him and get a phone number off one of the bands. The person I contacted was able to give me the owners number who lives in San Diego. He said the pigeon was racing for a friend outside of Auburn and said he would have him contact me. Roger called within a short time and was very happy to hear the bird was fine. He had been on a trans Sierra race over the weekend and had been caught in the weather. He was south of course and tired so what better place to stop then a flying community. This bird had also been on a training run during the smoke and our first storm, he made it through and arrived home two days later then expected. The owner thought that after a few days rest and some food he could be released for the rest of the flight home but Roger thought he deserved a ride. He didn't stop at an airport for nothing so when the weather clears up he will get flown to the Auburn airport where Roger will meet us and take him home to rest up for his next race

BREAKFAST CREW

Joe Lima

The next breakfast will be November 21st from 8:00 am to 11:00 am. We will be serving biscuits and gravy (made by Ron Stone), eggs, bacon and sausage. We will also have available coffee, milk and orange juice.

We would like to thank all those who offered to help with October 17th breakfast. Due to bad weather we had to cancel the breakfast, so we hope to see all of you at the next breakfast.

The Mosquito Volunteer Board is looking for someone to take over the breakfast starting next year, if you are interested please call Joe Lima at 622-5541.

YOUR PET QUESTIONS

Pam Steinke, DVM

Q: What are "Alternative" treatments for animals?

A: There are alternative ways to treat animals that are not considered traditional western scientific medicine. Also, many of these treatments can compliment current medical treatment plans. Some of the complimentary and alternative medicine used are: nutraceuticals, herbs, homeopathy, aromatherapy, acupuncture and chiropractic adjustments. If you are giving your pet glucosamine for its joints, milk thistle and/or SAmE for its liver, you are already into complimentary veterinary medicine. You should be able to find a specialist in alternative medicine if you are interested by referral from your regular veterinarian.

If you have any questions concerning your pets you would like answered in this column, email to drpjjs@hotmail.com

SWEET RECIPE

Evelyn Potter

Hi everyone! I was a little under the weather last month, hence, hence no recipe. Let's make up for that with a really good one this month. I put it out for company a couple of weeks ago and it passed the taste test. So, here it is-----

SWEET AND SPICY NUTS

1/3 cup sugar

2 teaspoons ground cinnamon

1/2 teaspoon ground allspice

1/2 teaspoon Seasoned Salt

1/4 teaspoon ground nutmeg

1/4 teaspoon black pepper

1 egg white

3 cups mixed nuts -- cashews, almonds, pecans, walnuts -- any mixture you want

1. Preheat oven to 250 degrees. Combine first 6 ingredients in a medium bowl; set aside. 2. Beat egg whites until foamy. Add nuts to egg white; toss to coat well. Add spice mixture; toss to coat evenly. 3. Spread nuts on a large greased baking sheet in a single layer. Bake 1 hour, stirring twice. Cool slightly, break apart, if necessary. Cool completely. Store in airtight container up to 2 weeks. Makes ;18 servings (3 Tbs. each)

Is there anyone out there who would like to share a favorite Christmas recipe with us? Email me at junebug29@mailstation.com I cannot receive attachments, mail only. Looking forward to hearing from you.

MVFD BOARD UPDATE

Belinda Brent

The MVFD board has been busily putting together a budget for 2005. Next year we expect Finnon Lake to be cost neutral allowing the board to focus its fund-raising efforts on debt reduction and building capital for future projects. We expect to approve a final budget at the December 2nd board meeting. Members of the department and community who would like to comment on the budget process are welcome to come to the November 4th board meeting(7pm @ the Fire Station.)

MEETINGS

GIRL SCOUTS Ages 5 thru 15

FIRST meeting will be on November 20th, @ 10:00 am. Call Teresa Kimm for more information. 295-9203. This will be a sign up meeting as well as a meeting to discuss what activities we would like to do.

MOUNTAIN FELLOWSHIP

Mosquito/Swansboro area residents and visitors are invited to attend Christian fellowship, Bible studies for all ages, and participate in ministering to the spiritual and physical needs of this area without driving off the hill. The Sunday Bible study begins at 9:30am followed by a Celebration service at 11am. MOUNTAIN FELLOWSHIP is a Bible teaching congregation of Christ's church. The Celebration service features contemporary music, prayer, testimony and the Word of God. All events are held at 3342 Stope Drive in Swansboro. For more information about MOUNTAIN FELLOWSHIP call 295-0503 and visit our Web site at www.cmna.net/mfom

CLASSES

POTTERY CLASSES ON THE HILL

Have you always wanted to learn how to make your own pottery?

Now you can take a class right here in Mosquito!

My name is Pam Angelo and I moved to Swansboro in January. I have been creating hand built ceramics since 1995, and would love to share my skills and enthusiasm for clay work with my new neighbors. The 6 week class will cover the basic handbuilding techniques in ceramics; you will be able to complete several projects. Each weekly 2 hour class will be held in my Swansboro studio. I offer flexible class times to fit your schedule, and will keep class sizes small. The course fee of \$120 will include all materials and kiln firing of your pieces. Visit my web site www.clayimpressions.com, or my studio to see what I'll be teaching you to make. Then sign up soon and create your own handmade Christmas gifts! Call 621-3688 for more information

NEW GROUPS

HORSE BUDDIES: <http://www.horsebuddies.com> If you would like to ride with me, give me a call. 642-8753; Yvonne McGregor
