

MOSQUITO BYTE

February 2010, VOLUME 23 #6

Chief's Corner

by Chief Bob Davis

Even though we are still very much in the winter season, now is the perfect time to be thinking about cleaning up around our houses to get ready for the summer and the usual threat of a wild land fire. It seems that I am always harping on people to cut the brush around their homes. Not only is it the prudent thing to do when you live in an area that has a high risk for a wild land fire but it is also a state law. I thought I would take this opportunity to "publish" this law so that all of us know just what the State expects. The following comes from the California State Public Resources Code Section 4291.

Any person that owns, leases, controls, operates, or maintains any building or structure in, upon, or adjoining any mountainous area of forest-covered lands, brush-covered lands, or grass-covered lands, or any land which is covered with flammable material, shall at all times do all of the following:

- Maintain around and adjacent to such building or structure a firebreak made by removing and clearing away, for a distance of not less than 30 feet (this was revised by state law to 100 feet that went into effect on January 1, 2005) on each side thereof or to the property line, whichever is nearer, all flammable vegetation or other combustible growth. This subdivision does not apply to single specimens of trees, ornamental shrubbery, or similar plants, which are used as ground cover, if they do not form a means of rapidly transmitting, fire from the native growth to any building or structure.
- Maintain around and adjacent to any such building or structure additional fire protection or firebreak made by removing all brush, flammable vegetation, or combustible growth which is located from 30 feet to 100 feet from such building or structure or to the property

line, whichever is nearer, as may be required by the director if he finds that, because of extra hazardous conditions, a firebreak of only 30 feet around such building or structure is not sufficient to provide reasonable fire safety. Grass and other vegetation located more than 30 feet from such building or structure and less than 18 inches in height above the ground may be maintained where necessary to stabilize the soil and prevent erosion.

- Remove that portion of any tree, which extends within 10 feet of the outlet of any chimney or stovepipe.
- Maintain any tree adjacent to or overhanging any building free of dead or dying wood.
- Maintain the roof of any structure free of leaves, needles, or other dead vegetative growth.
- Provide and maintain at all times a screen over the outlet of every chimney or stovepipe that is attached to any fireplace, stove, or other device that burns any solid or liquid fuel. The screen shall be constructed of nonflammable material with an opening of not more than one-half inch in size.
- Except as provided in Section 18930 of the Health and Safety Code, the director may adopt regulations exempting structures with exteriors constructed entirely of nonflammable materials, or conditioned upon the contents and composition of same, he may vary the requirements respecting the removing or clearing away of flammable vegetation or other combustible growth with respect to the area surrounding said structures.
- No such exemption or variance shall apply unless and until the occupant thereof, or if there be no occupant, then the owner thereof, files with the department, in such form as the director shall prescribe, a written consent to the inspection of the interior and contents of such structure to ascertain whether the provisions hereof and the regulations adopted

hereunder are complied with at all times.

There you go! The nuts and bolts along with all of the legalize on why we have to clear around our structures. Any violation of Code Section 4291 is seen as an infraction by the courts and results in a fine. The law specifies what the fine is and under what conditions it applies. Since this is a State law, it is the States responsibility to enforce it and that has been given to the California Division of Forestry and Fire Protection.

I consider Code Section 4291 to be a good law as it establishes a basis for common sense, that being if you live in this kind of area you should make your house as safe as possible. If you follow the requirements of 4291 then it does not have any impact on you as you are exercising good judgment. If you do not, then 4291 can be considered a pain in the wallet. If you do not adhere to the requirements then you can be found guilty of an infraction and fined, then you still have to clean up your property. If you have any questions contact myself or Aaron at the fire station, 626-9017.

Take the next couple of months, cut some brush, trim some trees and enjoy living in the country. In the meantime it is still winter and the roads can get you, so be careful and be safe.

Mosquito Volunteer Fire Association by Teresa Wren

The MVFA Board held its first meeting of 2010 on January the 7th. With 4 new Board Members, our first task was to make some committee assignments to get some long time goals started.

First off we formed a Web Committee made up Board members Sandi Brauns and Rick Clemens along with Paul Beacham (our Web Master) and Sharon Hern. The committee has already met and, thanks primarily to Paul's efforts, we now have a web site for Finnon Lake up and running. We've gathered the best information we had about the area along with a brief history of the hill and information on the campground and its needs. The web site also has links to camping, maps of the area, MVFA events for 2010, ways you can volunteer, "Friends of Finnon" as well as some great photo's of the area. Again, a special thanks to Paul Beacham and the Web Committee who has produced a great web site which

we can all benefit from. Please check out the site, finnonlake.com.

In the near future we are going to have work parties set up to start cleaning up the campgrounds. The Campgrounds Committee will be putting together a wish list and it will be posted on our web site after our meeting in February. We are going to definitely need community support to make the beautification of Finnon Lake a reality.

The Board also selected the dates for our annual events. Please mark your calendars for these dates and events: Easter Egg Hunt (March 27th), Finnon Lake Fireworks (July 4th), Community Picnic (July 17th), Halloween Party (October 23rd), Christmas party and Santa visit (December 11th).

The 2010 MVFA Board members are:

Teresa Wren (Chair)
Sandi Brauns (Vice-Chair)
Barbara Beacham
Rick Clemens
Mary Ann Haywood
Jake Pritchard
Fred Wilder

I look forward to seeing you at the next MVFA board meeting on Thursday, February 4th at 7 pm at the Fire Station.

SCPOA Report

by Kim Purcell-Kirkpatrick

We had a relatively short and small meeting for January, thank you to those who attended.

Johnathan and Kevin continue to clear brush and improve drainage along the roads, they have also completed the installation of the remaining 480 feet of vinyl fence along Mosquito across from Trout Lake.

They have cleaned up the area at the base of the dam at Trout in the hopes of eventually making it a nice picnic area since this is part of the common area of Trout. With the clearing, however, has also come the problem of off road vehicles being used in this area. This usage will will cause damage to the area and possibly to the dam. Logs will be placed along the road to hopefully stop this from happening and fencing may be considered for the area.

We still have a significant number of delinquent accounts that our secretary Lynda is dealing with. She has made many attempts to contact and work with these property owners and in many instances with no response. Given that, the board has decided to take the first step in sending those accounts to collections. When an account goes to collections, it adds a significant additional fee to the overdue amount for pay for the collection services. Remember, every owner who does not pay their assessment places an additional burden on the rest of the members. The board will make every effort to work with these individuals to get them current.

The budget committee is still trying to work with the Browning group to get our reserve study complete. As soon as it is done it will be sent to the members.

By now you should have received your annual packet. Please be sure to fill out and return your ballot as well as the survey that was included. Remember that your ballot **must be received prior** to the annual meeting, you **will not be able** to bring it to the meeting and have it counted. However, you may bring your completed surveys to the meeting.

Our next meeting will be our annual meeting on Saturday February 13th at 10:00 AM at the Fire Station. Please plan to attend the meeting, we would greatly appreciate any comments and suggestions for the next year. Our association attorney will be attending, so this will be a great opportunity to ask any questions you may have of him.

Cattle in Swansboro by Tom Harris

About a month ago, some stray range cattle wandered into Swansboro and began grazing in some neighbor's yards. The rancher who owned the cattle eventually found them, and rounded them up. John Moalli and I talked with this rancher, and he asked us to post his name and phone number at the Fire Station and in the local newsletter. Anyone who notices loose range cattle that are outside the national forest boundaries is asked to call: Marcus Bacchi - 530-363-3116. Marcus lives in Coloma, and said he will come up here pronto to round up any more wayward steers.

Mature Driver Class Being Offered by Ralph Hern

Want to refresh your knowledge of the "rules of the road"? Want to get current DMV information updates? Want to review defensive driving techniques for older drivers? Want to possibly get a discount on your automobile insurance? If your answer is "YES" and you are age 50 or older, an upcoming "AARP Driver Safety" class is just for you. The 8 hour class (presented in two 4-hour blocks) will be held at the County's Senior Center in Placerville in March. Block #1 is on Saturday, 3/6 and Block #2 is on Saturday 3/13 from 9:00 a.m. to 1:00 p.m. each day. NO TESTING is required and a DMV certificate of completion is issued if you participate in all 8 hours of the class. There is a \$12 class fee for AARP members and a \$14 fee for non-members. **Pre-registration, with payment, is required.** Call the Senior Center at 621-6255 for additional information and to reserve your spot.

Can't make this one? Another class is being offered on April 20th & 22nd at the **Mosquito Fire Station**. If you're interested in this one call Sharon or Ralph at 626-5268 for additional information and to reserve your spot.

Recycling by Jo Thomas

TIRE AMNESTY DAY

On Saturday, February 20th, 9AM - 4PM, tires (up to 9 per vehicle) can be disposed of FREE of charge at El Dorado Disposal Service, 4100 Throwita Way, Placerville, 626-4141. This is just off Hwy 49, between Hwy 50 and Pleasant Valley Road. NO rims or large equipment tires. County residents only. Tire Amnesty will continue the 3rd Saturday of every month thru June 30th.

Just a block or two away is the off-site recycling center at 580 Truck Street, 9:30AM - 4PM Tuesday thru Saturday, closed noon - 12:30PM. This facility accepts all recyclables such as cardboard, newspapers, glass, plastic bottles and even pays for aluminum cans, certain glass and plastic bottles.

MOTOR OIL

There is a local oil recycling site located in the parking lot just west of the Mosquito Fire Station, 8801 Rock Creek Road, Mosquito, 626-9017. This is

available FREE to residents. Motor oil ONLY, please.

E-WASTE RECYCLING

TV's, computers, monitors, cell phones, faxes etc. can be disposed of FREE of charge Monday thru Saturday 9AM - 4PM at Snowline Hospice, 455 Placerville Drive in Placerville, 621-1802.

LARGE APPLIANCE RECYCLING:

We now have a location to dispose of washers, dryers, freezers, refrigerators, etc at Snowline Hospice Recycling and Processing Center, 180 Industrial Drive, Bldg F, Placerville, 626-1641. This is a FREE service, Monday thru Saturday 9AM - 4PM.

Crafters

by Sharon Hern

Our first Craft Sale for this year will be held on March 27th at the Rock Creek Café Pavilion. There will be Easter and Spring items galore. We will be working on Easter crafts and Spring projects at our next meeting. We need your expertise whatever it may be, come join the fun. Our next meeting is **February 26th**.

Our craft meetings are held on the 4th Friday of each month at the home of Darlene Rood, 2211 Swansboro Road, from **10AM to 12Noon**

Big Time Thanx

by Critter Don Reid

"Big Time Thanx" to MVFA, Swansboro Pilots Association and my Community for yummy Happy Ho Ho, Turkey and vittles. Sincerely Critter Don Reid

2009 Mosquito Phone Book Updates

Please contact Sharon Hern at 626-5268 with any additions or changes to the phone book.

Phone Books are available at the Fire Station for \$3 each.

New Listing:

Clemens, Rick. 626-4696
3800 Stope Drive

Changes: (changes are underlined)

News from the Café

by Frank Ethridge

We wish to thank everyone for their support of the Café.

Valentines Day, February 14th falls on a Sunday this year, so we will be doing a Valentines Day Brunch Buffet from 10:00am to 2:00pm for \$17.95+tax for adults. We are

also accepting reservations for our Valentines Day Sweetheart Dinner. The dinner will be a four course meal from 5:00 pm to 9:00 pm **by Reservations only.**

Don't forget that you can pick up a Take N Bake pizza from the café.

Let us help you with any catering needs that you may have. You may reach us at 622-0210 or at fwethridge@gmail.com

Thank you from the Crew at the Café

Recipe of the Month

by Chef Frank

Southwestern Tortilla Soup (a repeat by request)

This will put a little warmth in you on those cold winter evenings

- 6-inch corn tortillas cut in strips
- 2 ounces corn oil
- 3 cloves garlic minced
- 1 fresh jalapeño minced (Add a little more if you like it hotter)
- ¼ cup chopped cilantro
- 16 ounces chopped tomatoes (canned)
- 16 ounces vegetable or chicken stock
- 8 ounces tomato juice
- ½ teaspoon cumin
- ½ teaspoon light chili powder
- 1 tablespoon lime juice
- 2 ounces cream

In a medium sauce pot, heat the corn oil, add the tortilla strips and cook until crisp but not brown. Add all of the other ingredients (except the cream) simmer for 15 to 20 minutes. Place in a food processor or blender (be very careful the liquid is

going to be extremely hot) and blend until smooth, add the cream.

May be garnished with grated cheese or grilled chicken and avocado

Helpful Hints*HOW TO WHITEN LINENS WITH LEMONS*

Damask napkins, linens, even white socks can be whitened on the stove: Fill a pot with water and a few slices of fresh lemon, and bring to a boil. Turn off heat, add linens, and let soak for up to an hour, launder as usual. For extra brightening, spread them out in the sunlight to dry.

HOW TO STORE CANDLES

Candles should be kept in a dark, cool, dry place. Why? Light can cause the colors to fade, heat can cause the candles to warp, and moisture can make the wicks difficult to light.

INFORMATION ABOUT CLOTHES DRYERS

(This was sent in by a Byte subscriber)

The heating unit went out on my dryer! The gentleman that fixes things around the house for us said that he wanted to show us something and he went over to the dryer and pulled out the lint filter. It was clean. (I always clean the lint from the filter after every load of clothes.) But that was not what he wanted to show us. He took the filter over to the sink and ran hot water over it. The lint filter is made of a mesh material - I'm sure you know what your dryer's lint filter looks like. WELL...the hot water just sat on top of the mesh! It didn't go through it at all! He told us that dryer sheets can cause a film to form over the mesh and that's what burns out the heating unit. You can't SEE the film but it's there. It's what is in the dryer sheets to make your clothes soft and static free - that nice fragrance too, you know how they can feel waxy when you take them out of the box, well this stuff builds up on your clothes and on your lint screen. This is also what causes dryer units to catch fire & potentially burn your house down with it! He said the best way to keep your dryer working for a very long time (and to keep your electric bill lower) is to take that filter out and wash it with hot, soapy water and an old toothbrush (or other brush) at least every six months.

He said that makes the life of the dryer at least twice as long!

How about that? Learn something new every day! I certainly didn't know dryer sheets would do that. So, I thought I'd share! Note: I went to my dryer and tested my screen by running water on it. The water ran through a little bit but mostly collected all the water in the mesh screen. I washed it with warm soapy water and a nylon brush. I had it done in 30 seconds. When when I rinsed it, the water ran right thru the screen! There wasn't any puddling at all! That repairman knew what he was talking about!

Grandparent Humor ----

A grandmother was telling her little granddaughter what her own childhood was like: "We used to skate outside on a pond, I had a swing made from a tire that hung from a tree in our front yard. We rode our pony. We picked raspberries in the woods." The little girl was wide-eyed, taking this all in. At last she said, "I sure wish I'd gotten to know you sooner!"

A young grandson called to wish his grandfather a Happy birthday. He asked his grandfather how old he was. When he told him that he was 62, the grandson was quiet for a moment, and then he asked, "Did you start at 1?"

Classified Section

The *MOSQUITO BYTE* is available by subscription and is mailed first class to subscribers. Cost of subscription is **\$15.00 per year** with 2 years as the maximum period for Byte subscriptions beyond one year. Please make check payable to MVFA and mail to 9009 Orval Beckett Ct, Placerville, CA, 95667-9040. Deadline for news and advertising is the 19th of each month.

ADVERTISING POLICY

There is no charge to our subscribers for advertising in the *Mosquito Byte*, however ads must be limited to 7 column lines maximum. Deadline for advertising is the 19th of each month. Call Gail at 622-2235 or e-mail gbarritt@earthlink.net. Ads in the "Free", "For Sale" and "Wanted" category will run for **three months** unless you call to say the item is no longer available, or that you want the ad extended.

The editors reserve the right to edit, limit or refuse any article submitted for publication in the *Mosquito Byte*. The Mosquito Volunteer Fire Association accepts ads from subscribers without endorsement.
