NJ Chapter Tour of the Chilled Water Plant at Perth Amboy High School

Tuesday, April 5, 2016 beginning at **3:30pm**

Perth Amboy High School Is Located At:

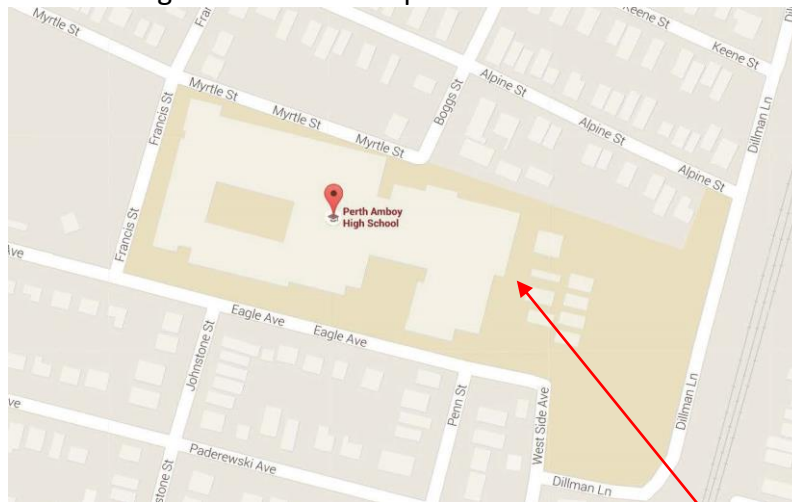

300 Eagle Avenue

Perth Amboy, NJ 08861

When planning your arrival, allow for time to locate street parking along Eagle Avenue and for a short walk to the Chiller Plant. Walk down Eagle Avenue past the Main Entrance to the end of the school and enter the fence at the open gate and the Chiller Plant is straight ahead.

Please note the start time of the tour. This is done in conjunction with our host as well as to assist attendees in missing the bulk of nightly traffic when traveling to this event and then to the monthly dinner meeting being held the same evening.

Pre-Registration is not required and the tour is free.

Chiller Plant is here
