## TV PRODUCTION CATERING

Other than our amazing award winning food and great prices, we offer you a large number of menus including full breakfasts, hot and cold lunches, high end street food, scrumptious healthy and vegan options, tasty desserts, themed menus (Mexican, Thai, American etc) and cater for all allergens. We have experience catering small to large numbers of people, currently with COVID safe measures in place and little disruption to service

We use exclusively biodegradable plates and cutlery, our friendly and professional staff are the best in town, our brand new custom built fun and funky food wagon is self-contained so we can set up anywhere.

We can cater inside or outside from our cool food truck or gazebo. We can serve straight from the van, buffet style or do pre-ordered/pre-packaged delivered meals and everything in-between, so please let us know how we can best cater for you.

In the past few years we have catered for many famous companies such as the BBC, Eurosport, Amazon, ITV, Everton Football Club, Lads Bible, Panavision and many more you have probably never heard of, as our quality food, professional service along with our adaptability ensure our clients always come back for more.

If you are looking for quality, affordable and reliable catering that is flexible to the needs of a busy production then look no further. We thank you for taking the time to read through our info and your crew/staff/guests will thank you for booking us as our food is the best around!
