

BRACELET SIZING GUIDE

Measuring your wrist accurately is crucial to ensure a well-fitting bracelet.

Use a flexible measuring tape or string & wrap around your wrist. Place the measuring tape or string where you would normally wear a bracelet. This is typically just above the wrist bone.

Ensure that the tape or string is snug around your wrist without being too tight. You should be able to fit a finger between the tape or string and your wrist.

Lay the bracelet out straight and measure in inches. If you do not see your size as an option, please leave your custom size in the Additional Information section.

Taking the time to measure your wrist accurately ensures that the bracelet will fit comfortably. If you are purchasing as a gift, please refer to the chart below.
