

- **Prop 19** had a very deceptive title which misled voters and passed narrowly in 2020, resulting in **unaffordable property taxes** for many Californians.
- Countless Californians are being forced to sell their family homes and businesses when parents pass away.
- Renters are being evicted when inheriting landlords cannot afford skyrocketed property taxes and must sell.
- This will negatively impact all future generations! Let's repeal this death tax!
