

Jargon of Words

If all tokens are in unison and in agreement of UOP, it will be described as 'Barracks'. If one of the tokens move away from 'Barracks', it will be tagged as 'Renegade'. A token that moves toward the 'Renegade' will be called 'Scout' and what is left in the 'Barracks' is called 'The General'

The 'Renegade' and 'The General' are both on extreme sides, if the 'Scout' joined the 'Renegade', it will be described as 'Coup' and if the 'The General' joined the two then the 'Barracks' has moved.
