

JUKI®

Household Sewing Machines

Industrial Technology for Home:

JUKI launched its first household sewing machines in 1947. Since the introduction of the household sewing machines the company has been serving markets with new technologies, such as, rotary needle thread take-up system (in 1954), world's first automatic thread trimmer (in 1978) and auto thread tension (in 1985).

Juki is a leading brand in the sewing machine industry, with a reputation for producing reliable, durable machines that are easy to use and packed with features.

1. Quality: Juki sewing machines are built to last, with high-quality components and sturdy construction that can withstand years of heavy use.
2. Versatility: Juki machines are designed to handle a wide range of fabrics and sewing techniques, from delicate silks and satins to heavy denim and canvas.
3. User-friendly features: Juki machines are known for their intuitive, easy-to-use controls and features that make sewing a breeze, even for beginners.
4. Precision stitching: Juki machines are engineered to produce precise, consistent stitches, thanks to features like automatic thread tension and adjustable stitch length and width.
5. Quiet operation: Juki machines are designed to operate quietly, so you can sew without disturbing others around you.
6. Range of models: Juki offers a range of domestic sewing machines to suit a variety of needs and budgets, from basic models for beginners to high-end machines for advanced sewists.

JUKI®

TL-2010 Q

1-NEEDLE, LOCKSTITCH,
PORTABLE SEWING MACHINE
WITH AUTOMATIC THREAD TRIMMER FOR QUILTING,
TAILORING, APPAREL AND HOME DECOR

NEW

Foot Controller with thread trimming function

It is possible to automatically trim both needle and bobbin threads by pressing the heel side of foot controller. The foot controller is big enough and it is easy to control sewing-start and -stop.

NEW

LED Light

LED light brightens the needle area for better material handling.

NEW

Sub Tension Unit

Even if strongly twisted thread should be used, the unit will avoid "return of twist of thread" and supply needle thread to the main tension unit without thread quivering. It helps sewers create stitches with stable thread tension.

NEW

Maximum Sewing Speed Control

Now you can control Maximum sewing speed within the range from 200 to 1,500 SPM with this slide knob. This is ideal for free motion quilting or when a fixed sewing speed is required for your sewing techniques.

Predetermined Stop Position of the Needle

When you stop sewing, the machine will come to an accurate stop with the needle down. To move the needle up or down as desired, simply press the needle up/down button. When the button is pressed continuously, the machine sews stitch by stitch at low speed.

Knee Lifter Lever

The knee lifter lever allows you to lift/lower the presser foot without using your hands. The presser foot can be raised as high as 12mm, so that light to heavy weight materials are easily handled in and out of the sewing area with ease.

Quilt Virtuoso Pro

TL-2200QVP Mini

● **1/4" Presser Foot** (for 120V machine)
7mm Presser Foot
 (for 220-240V machine)
 Creates even 1/4 inch or
 7mm seams for perfect piecing.

● **Even Feed Foot**
 Powerfully feeds multiple fabric
 layers from both top and
 bottom without shifting.

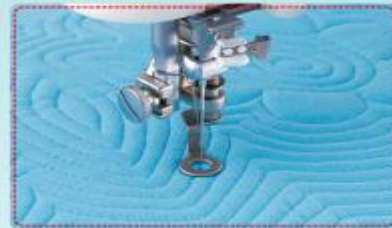

● **Automatic Needle Threader**
 The automatic needle threader
 quickly and easily threads the
 needle without eyestrain, allowing
 you to change thread colors
 as often as you wish.

● **Quilting Foot Front Open Toe**
 Allows for more visibility during
 free motion quilting.

● **1/5" Quilting Foot**
 Use for free motion quilting to
 glide smoothly and evenly over
 fabric layers.

● **1/4" Quilting Foot**
 Create equally spaced free motion
 quilting lines, perfect for echo quilting.

● **Drop Feed**
 The feed dog may be raised or
 lowered by simply adjusting the switch.
 Lowering the feed dog allows you to
 free motion quilt in any direction with
 precision and ease.

● **Automatic Thread Trimmer**
 With your automatic thread trimmer
 you can trim both the needle and
 bobbin threads simultaneously
 as desired.
 Enjoy the same thread trimming
 mechanism as many of our Juki
 Industrial Sewing Machines.

**Thank you very much
for your attention!**
