# LLOP & KNUTTEL PROJECT MANAGERS

## Refit PROJECT DC2019 - 165' Expedition Yacht

It gives us great pleasure to recognize the owner's team and the vessel's managers of PROJECT DC2019 for their trust and support, thank you.

We would also like to thank more than 96 service companies that made it possible to deliver "impressive progress while still maintaining a high quality of workmanship", as described by an independent oversight party.

Your professionalism, diligence and unwavering commitment to the overall success of the project made it possible.
