Lees of Virginia DNA Donor List Compiled by Jacqueli Finley

Important Facts About These DNA Matches and Reports:

- These do not represent small amounts of Autosomal DNA these are over 80 publicly verifiable
 Lees of Virginia descendants GEDMatch Kits and Publicly Verifiable GEDCOMs that are well
 documented available on GEDMatch and/or Wikitree.
- 2. All these DNA matches are WELL WITHIN the 8 Generations of Accuracy for Autosomal DNA confirmation prior to any 'dilution' or 'bleeding over' of DNA that can occur after the 8th generation.
- 3. The DNA matches for the Generational DNA Reports fit and match nicely to each one of the Lees of Virginia MRCA (Most Recent Common Ancestor) on each verifiable GEDCOM and family tree for each DNA donor match. Each of these DNA MRCA matches all descend from Col Richard lee and Anne Constable.
- 4. Any argument that 'to keep in mind' these may be DNA matches from an intermarriage relationship which is a 'moot' argument when one is related by a marriage there is not a blood relationship so no DNA would be relevant.
- 5. As mentioned prior over 80 claimed and documented descendants of the Lees of Virginia lines that can be publicly verified would be unlikely they all share an outside common ancestor but again I stress that all of these DNA matches, GEDMatch kits, and GEDCOM family trees can be verified by anyone at any time to see the common ancestry derives from a Lees of Virginia ancestor connecting to Col Richard lee and Anne Constable.
