

## **THE BOARD-SUPERINTENDENT RELATIONSHIP**

The successful operation of schools requires a close, effective working relationship between the board and the superintendent. The relationship must be one of trust, goodwill and candor. As the legally designated governing body, the board retains final authority within the district. The board exercises those powers that are expressly required by law and those implied by law. The superintendent is the board's professional advisor to whom the board delegates executive responsibility, including such powers required to manage the district in a manner consistent with board policy and state and federal law.

The superintendent, as executive officer of the board, is responsible for the administration of the schools under applicable laws and policies of the district. The board delineates the duties of the superintendent and uses them as the basis for evaluating the superintendent's performance. Unless specifically limited, the superintendent may delegate to other staff the exercise of any powers and the discharge of any duties imposed by district policy or a vote of the board. The delegation of power or duty does not relieve the superintendent of responsibility for the actions taken under such a delegation.

In order to perform their responsibilities, board members must be familiar with the operations within the schools. The superintendent will establish communication procedures which can enhance the board member's understanding of student programs and school operations.
