SUPPLIER INFORMATION

AEP Energy is a certified competitive retail electricity and natural gas supply provider. They provide supply to more than 400,000 residential and business customers. You have the freedom to join these customers by choosing the right energy option for your home and business.

Direct Energy is one of North America's largest energy and energy-related services providers with nearly 5 million residential and commercial customer relationships. Direct Energy provides customers with choice and support in managing their energy costs through a portfolio of innovative products and services.

SFE Energy is committed to providing customers with price certainty for their natural gas and electricity commodity supply. SFE Energy provides natural gas, electricity, and green electricity to residential and commercial customers in Pennsylvania, Maryland, Massachusetts, California, New Jersey and Ohio.

ENGIE is one of the largest non-residential retail electricity suppliers in the United States and currently serves commercial, industrial, and institutional customers in 14 markets. Through the integrated facility management and commitment to energy performance improvement of customer facilities, ENGIE offers integrated management solutions—including on-site solar, battery and cogeneration design and installation.

Crius Energy is a comprehensive energy solutions partner that provides electricity, natural gas and solar products to nearly one million customers. Crius' broad suite of energy products and services make it easier for consumers to make informed decisions about their energy needs. The company is currently active in 23 markets across the U.S. and Australia, with plans to continue expanding its geographic reach. Assignments and or Assumption Options are NOT available for matrix customers.

Mega Energy is a electricity supplier that has been serving deregulated markets in the Southwest since 2007. With a goal of offering affordable rates, reliable terms and exceptional customer service, Mega Energy has steadily grown to include states in the Northeast that have only recently empowered consumers through deregulation.
