

YOU'RE READY TO MOVE TO OFFICE 365

 Office 365
From GoDaddy

What happens to the emails, appointments and contacts you have now?

When you switch email systems, your messages, calendar entries and saved contacts do not move automatically. Unfortunately, manually moving your existing data onto a new system (or migration) can be time-consuming and runs the risk of valuable information loss.

GoDaddy can help make the transition to Microsoft Office 365 seamless, without hours—or even days—of work and stress. When you migrate your existing mailbox with us, you'll enjoy all the features of your new Office 365 platform without interruption.

How It Works

Whether you have five employees or 500, our migration experience gives you the flexibility to move your existing data to GoDaddy's Office 365 platform without interrupting your day-to-day operations.

The entire process takes place when it's convenient for you and requires no downtime for your business.

Call (480) 463-8887 to find out how to bring the power of Microsoft Office 365 to your business.

We Do the Heavy Lifting

GoDaddy can move data from virtually any on-premise or hosted POP3/IMAP/Exchange email system. What's more—we'll move content and settings, making your transition to Office 365 simple and seamless.
