

In-Kind Product Donations

GoDaddy now provides in-kind product donations exclusively to entrepreneurs enrolled in our [Empower by GoDaddy](#) programming offered through select community partners.

If you are a nonprofit organization customer who received in-kind product donation support through GoDaddy's former in-kind application process within the last three years, effective September 18, 2023, you will have received an email update sharing the news that this program has being discontinued. We do not offer in-kind sponsorship to organizations outside of our Empower by GoDaddy programming.

Financial Sponsorship Requests

Empower by GoDaddy is GoDaddy's global community and philanthropic program, equipping entrepreneurs with training, tools, and peer networks to accelerate their journeys. Through this program, we invest exclusively in organizations that support inclusive entrepreneurship. We distribute grants to community and nonprofit organizations from which we solicit proposals on an annual basis. You can learn more about this work [here](#).

If your organization focuses its resources on supporting underserved and underrepresented entrepreneurs and you believe your work is in alignment with Empower by GoDaddy, you can reach our team at empower@godaddy.com to express interest in partnership.
