ABOUT US

Adorn Murals™ exists to transform blank walls into powerful storytelling moments. Founded by mural artist, Jessica Henson, and fueled by her husband and sales director, Matthew, this dynamic duo blends creative vision with strategic execution. Their team turns everyday spaces into destinations that inspire and connect.

Jessica leads with heart and artistry, designing murals that reflect the soul of each space. Matthew handles relationships, logistics, and operations — making sure every project feels effortless for their clients and impactful for the community.

Adorn is a proud member of Rooted, a national network of elite female muralists. This connection keeps them inspired and gives their team access to some of the most talented artists in the country, allowing their team to expand quickly for large-scale or multi-location projects.

From public parks and school campuses to commercial spaces and community hubs, Adorn Murals bring color with purpose. Their non-profit mural initiative, Adorn the Bay, goes one step further by helping to bring beauty back to hurricane-affected communities of Tampa Bay, while employing displaced artists. With every brushstroke, they build connection, spark joy, and turn challenges into colorful solutions.

“It’s never just about the paint — it’s about the people, the places, and the purpose behind every mural.”
