

Create a game spinner.

Instructions for game spinner.

1. Cut out the spinner wheel and decorate it however you'd like.
2. Poke a small hole in the center of the spinning wheel and insert the split pin with the paper clip hooked around the top. The top of the split pin should be about 1cm above the wheel to allow the spinner to move more easily.
3. Bend the legs of the split pin underneath the wheel and place tape over them to keep it secure.
4. To use, flick the end of the paper clip with your fingers so that it spins around the wheel. Whatever number it lands on is the chosen number.
