

Hello. My name is Kevin. I was born in a small town called Forest City, North Carolina. I am 65 years of age. I was the youngest of 3 brothers. I grew up in a musical family, singing in the church choir and high school chorus. Through the years of growing up I learned different instruments such as the drums, organ, tambourine, harmonica, acoustic guitar and electric bass guitar. While serving in the US Air Force, I played in a couple of different cover bands and was the Bass player and front man. Over the years I got involved with Karaoke locations and a friend that I was working with a few years ago, stated why not go back and use your music talent. I got onto YouTube and shortly after decided to write some of my own music. Growing from phone recordings to camera recordings. Seeing myself growing on Social Medias such as Facebook and Instagram. I decided to purchase a PreSonus DAW Home recording system in September 2022. I have presently total in my catalogue 54 total writings to date and it has been a learning phase. I feel that my accomplishments are getting better. I consider myself a Fusion Pop Artist with an eclectic writing style. Recently have added playing Jackson Electric Guitar and a Yamaha E373 Keyboard I also have an Ibanez Mandolin to my instrumental talents. I was recently interviewed with Daily Music Roll Magazine and published in the October 2023 edition on Pages 12 and 13. I was recently interviewed by Daily Music Roll November 2024. It can be found in the interview section . As Casey Kasem used to say keep looking up and reaching for the stars.

Thank you all for listening and enjoying my music!

*Kevin C. Browne*
