President's Message

Jerry Shiller, President

President@lemongrovegunclub.com

The calendar year is coming to an end. We've passed the Winter Solstice, the daylight hours are gradually getting longer, but it's winter now. Let's hope we get some rain (during the night so we can shoot during the day). We have ranges to use, and friends to shoot with. Let's continue to make Lemon Grove Rod & Gun Club the best range in town. Stay safe, shoot straight, and keep the Club growing. Happy New Year

BLACK POWDER

Jerry Shiller

The December Black Powder match was a pistol match with a playing card at 10 yds, a 6-inch metal gong at 25 yds, and a metal pig at 50 yds. We had three shooters, one of whom didn't get the memo about the pistols. As a result, Travis Bille shot a perfect match with his rifle. When asked to shoot the club in the middle of the ace, he hit it squarely in the middle. The January 21, 2024, the match will be a rifle match. Let Jerry Shiller know if you want to try shooting black powder so he can bring some extra supplies for you to shoot.

Lemon Grove Rod & Gun Club

Mission Statement

The object of this organization shall be the encouragement of organized rifle, shotgun and pistol shooting with a view toward a better knowledge of the safe handling and proper care of firearms, as well as improved marksmanship. It shall be our further objective and purpose to forward the development of those characteristics of honesty, good fellowship, self-discipline, team play and self-reliance which are essentials of good sportsmanship and the foundation of true patriotism. To foster the maintenance, development, restoration and wise use of all wildlife and other natural resources through education of the people and support of appropriate legislation.

Summary

December 19, 2023

Board of Directors Meeting

The Board approved two new

members into the Club. The Board approved a schedule of monthly weekend open range shoots for members only. Some of the dates are Saturdays, some are Sundays. The calendar will be updated soon to reflect the dates that are reserved for members. Note to RSOs – RSOs will be needed on these weekend dates. If you are an RSO and able to support the ranges on weekends only, this is an opportunity for you to participate. The Board voted to sell the extra, used Beomat trap machine to South Bay Rod & Gun Club as their trap machine failed. The Board approved fees for the recently approved Family and Daily Use Membership classes. The annual fee for a family unit consisting of Regular Member plus Spouse plus up to 5 youth under the age of 18 will be \$190. The Daily Use fee for non-members that participate in events will be \$20/day. This will replace the current Gate Fee. The Board voted to rescind its recommendation for construction of a new, fixed restroom building. For this reason, the members' vote on January 2, 2024, has been cancelled. Due to continuing rising costs, plus on-going maintenance requirements, the Board voted to raise Club dues for fiscal year 2024-2025 which starts May 1, 2024 (including Renewal Period February -April). New fees will be:

UPCOMING TRAINING AT LEMON GROVE ROD AND GUN CLUB

We have a ton of great training coming up, both with club members leading it and with national level instructors coming to our range. There is no better way to get some of the best training in the nation from some outstanding instructors. Seats in these classes are limited if you want to attend sign up now. Club members have priority for a limited time, after that they are open to the public, so don't delay or you risk not getting in.

If you have any questions about any of the upcoming training, feel free to email me at davereed2010@gmail.com

Here is our current training schedule:

Defensive Handgun Clinic - 2nd and 4th Friday of every month

Come join us for an instructor-driven clinic to develop good defensive handgun skills and be challenged by ever-changing defensive scenarios. Members and member-accompanied guests 11 years and older are welcome to attend to learn defensive handgun fundamentals. Minors 11-15 must be always accompanied by a non-shooting adult while on the range unless approved by Shootmaster. We will have available instruction on handgun safety, defensive handgun practice, drawing from the holster, and rapid target engagement at distances from close contact to 45 feet.

If you feel intimidated, please join us on the 2nd Friday of the month session where in one night you will become a confident shooter! For first-time shooters or those who have never had formal handgun training, this class teaches you the basics of grip, stance,

sight alignment and trigger control.

The second clinic of the month is held on the 4th Friday of the month. For those who have taken the Beginner Handgun class and have been approved by the Shootmaster, this clinic is designed to hone your skills to become a proficient, confident shooter. The class is limited only by the skills of who shows up, and can involve shooting while moving, multiple target acquisition, one-handed malfunction clearances and low-light shooting. No beginners allowed.

The Frontsight training methods will be used to guide you comfortably and safely through your training. If you have ever heard of Frontsight training in Nevada but could not afford to go, this clinic will help you get prepared for this great training.

Stan Luhr, an NRA RSO, pistol instructor, and 3-time Frontsight Distinguished graduate is your Shootmaster. The course is free for members and \$10 for guests. Advanced registration is required as there will be a limited number of openings for each clinic. If you are a Frontsight graduate and want to help, please join us. Contact Stan at ("sluhr@ppcexpert.com") to sign up now!

CCW SKILLS CHECK CLINIC - 3rd Sunday of every month

This clinic will use practical "real-life" scenario-based stages, and drill-oriented EDC skill building modules, thematically built upon the **AVOID EVADE DEFEND** concepts of smart EDC.

Pre-registration with the clinic Shoot Master is required. A current CA, valid CCW license, must be presented to attend **CCW SCC**. The firearm used must be on the license. Firearm and license check are mandatory, prestart to participate. An appropriate sturdy gun belt with IWB holster, preferably Kydex and two magazines will be needed. All draw work is from concealed Appendix Inside Waist Band. No other carry positions are allowed. Round count variable. Estimate one hundred plus per event.

Cost per event per member \$15. Non-member guests, including prospects, not allowed. Not open to the public.

New participant orientation, firearm and license check begins at 12:30 pm SHARP to align safety protocols and assess dry fire draw skill and safe gun handling skill from concealed, culminating in an abbreviated basic marksmanship live fire from concealed. You must pass the Basic Standard timed draw to first shot at 3 yards, USPCA A Zone hit, in less than 2.25 seconds to qualify for the Clinic. The remaining time of the first hour will be to set the range for that specific clinics course(s) of fire, for the Module. Prior club member participants begin the clinic thereafter, with a Safety Brief at 1:45 pm.

If you are late for the New Participant Orientation or to the 1:45 Safety Brief or arrive without being pre-registered for the Clinic you will be unable to participate.

Each monthly **CCW SCC Module** will be preprogrammed similarly, yet differently in advance, with varying practical real life CCW scenarios and drills. Pre-registration is **REQUIRED** due to the scenario and drill staging set-ups and associated materials required for participants in the clinics. The Shoot Master for CCW Skills Check Clinic; Blake Beckcom, is reachable by phone at 619 806 1827.

Yoga With Guns - Tatiana Whitlock - Feb 11, 2024 1:30 PM to 5 PM

Yoga with Guns, also known as *What Happens* is a 3-hour workshop dedicated to the worst case scenario – shooting from the ground. Whether we find ourselves fighting from the ground because we were pushed, or just have two left feet, learning how to manage yourself and your firearm safely from grounded positions is an important skill set to develop. Are you prepared to work through the awkward but highly likely non-standing (non-standard) positions you could probably find yourself in if a confrontation doesn't go to plan and gravity wins? This session will have you on the ground, working two-handed, dominant and support hand only while adapting to what your body and vision need to be successful and safe. Learn techniques to overcome personal injuries and physical limitations to safely fight your way back to your feet. Being prepared means being ready to take control of the situation and respond appropriately when *What Happens*!

EXPERIENCE LEVEL: Students should have at least taken a basic handgun class within the past year and have a solid grasp of range etiquette and gun handling, holster and safety skills.

DURATION: 3.5-Hours

The Inner Game of Shooting is not an instructor certification

course, but we do require your level of shooting to be intermediate - advanced. It is a 2-day program covering physiological, psychological, and technical aspects of YOUR development. Self-coaching requires a multi-discipline approach applying diagnostic skills, cognitive interviewing, understanding the decisional process, predictive analysis, and adapting to YOUR unique needs. Identifying and understanding YOUR learning style and more importantly, YOUR blind spots.

Performing at our highest level should be the goal of all shooters. Unfortunately, the modern methods of coaching have not been applied to shooting in a cohesive and unified manner which leads to lots of wasted time and effort.

In this class we will explore the three modes of training, technical (accuracy and precision), speed (speed and efficiency), and performance (neuroscience triggers), allowing the athlete to understand the requirements of each aspect of training.

Development of a plan for practice, understanding how to measure and refine for continued improvement, and how to approach qualifiers, classifiers, test, matches, or personal protection.

The mental game is the most important part of high level performance, consisting of the technical/physical, psychological, and physiological. Understanding how to modulate and capitalize on these states is what will allow the shooter to perform in an accurate, consistent, efficient, and disciplined manner.

Neuroscience has made great strides in recognizing the precursor to high level performance, and these can be performed in the moments allowing the athlete to use all their available skill while making timely decisions which ultimately lead to success.

Shooting is more than a technical methodology, it requires quick processing, predictive decisions, and recognition primed decision making. You can make great progress and perform at your highest level by training appropriately. This is the missing piece, and the most important.

Symtac Consulting 2-Day Tactical Shotgun Skills Class - May 11-12, 2023 - Alpine, CA.

This course primarily focuses on the Push/Pull method of recoil control. Using Rob's unique method of recoil management, the student will be able to reduce felt recoil by nearly 50% and be able to fire follow-up shots with a 12 gauge shotgun as fast as most shooters can fire their pistols. The student will also be introduced to the shotgun CQB technique, which effectively shortens the weapon by 33%, making it effective even in extremely tight quarters. Other topics include: marksmanship fundamentals, patterning zones, ammunition selection, tactical manipulation, equipment selection, low light considerations, malfunction clearances, pistol transitions, pivots/turns, and shooting on the move.

We Appreciate Our Volunteers at LGRGC

The 2023 appreciation gifts have arrived for our terrific top 10% volunteers. It's a classy navy vest with the club logo pictured below. We think you will like it. Please pick yours up at the next board or general meeting.... or see Jim Williams next time you visit LGRGC.

Why is it often said that 10% of members do 90% of the work?

Some folks just try to get by while others jump in and help make an organization run! Why not join us and help if you are interested. Volunteer appreciation gifts are just our way of expressing our gratitude for your time and talents. If you see someone at the range in their 10%er gear - please take a moment to thank them.

If you are interested in helping at LGRGC for a special event, training, admin, workshop, or civic event watch our newsletter or contact Pres., Jerry Shiller or watch this newsletter for opportunities.

Club Dumpsters

Cardboard goes in the recycling dumpster near the building on the lower trap range. Please DO NOT put it in the trash dumpsters.

ATV Usage on the Range

ATV's must be used in a responsible manner on the range. The intent of allowing them on the range is to enable access for those with physical limitations.

No Smoking Areas

Smoking IS NOT allowed on the range or in any building with the exception of the picnic area and the area around the utility building.

Situation at the Range?

Contact a board member if there are any situations that effect range operations. For example, a recent homicide investigation resulted in Sycuan Truck Trail being closed so there was no access to the range.

Other board members will be notified and action taken to notify members by mass email, web site notice or other methods as the situation dictates.

Cash Turn-In

The Secretary and Treasurer ask that cash being turned in either be consolidated to the fewest number of bills or, turn in a check.

For example, instead of turning in 20 one dollar bills, convert it to a single twenty dollar bill.

OPEN SHOTGUN

Open shotgun please note: You still need to sign range inspection, and everyone needs to sign. Nonmembers need a waiver. Forms in 4 drawer file cabinet at the back of the sign in shack. Put the completed form in the file on the wall above the file cabinets.

If you need to make a personal call, use your cell or borrow one.
