

# Charging microfiber mops with PurOne for floor cleaning & disinfection

## ▶ STEP 1

Place microfiber mop heads in the top down charging bucket (refer to chart below).

## ▶ STEP 2

Fill the 32oz measuring cup with PurOne solution and pour over the mop heads in the charging container.

## ▶ STEP 3

Allow 5 minutes for microfiber mops to fully saturate before using. Do not over-saturate. Rotate as needed.

## ▶ STEP 4

Apply PurOne solution to floors allowing the floor surface to remain wet for 4 minutes. Let the product air dry.

*For all microfiber applications, PurOne solution must be pre-mixed in 5-gallon buddy jugs or 32 oz bottles prior to charging mops.*
