Independent Auditors' Report

We have audited the accompanying financial statements of the business-type activities of the Inverness Water and Sanitation District, as of and for the years ended December 31, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Inverness Water and Sanitation District as of December 31, 2015 and 2014, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Inverness Water and Sanitation District's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying notes are an integral part of the financial statements.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Note 1: Summary of Significant Accounting Policies:

The accounting policies of the Inverness Water and Sanitation District, (the “District”), located in Arapahoe and Douglas Counties, Colorado, conform to the accounting principles generally accepted in the United States of America (“GAAP”) as applicable to governmental units accounted for as a proprietary fund. The Governmental Accounting Standards Board (“GASB”) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies consistently applied in the preparation of financial statements.

Definition of Reporting Entity

The District is a quasi-municipal corporation and political subdivision of the State of Colorado established in 1973, under the State of Colorado Special District Act. The District was established to develop and provide water, sewer and storm drainage facilities and services. The District’s primary revenues are property taxes and water usage and sewage charges. The District is governed by an elected Board of Directors.

As required by GAAP, these financial statements present the activities of the District, which is legally separate and financially independent of other state and local governments. The District follows the GASB pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB sets forth the financial accountability of a governmental organization’s elected governing body as the basic criterion for including a possible component governmental organization in a primary government’s legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization’s governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency. The pronouncements also require including a possible component unit if it would be misleading to exclude it.

The District is not financially accountable for any other entity, including the Inverness Metropolitan Improvement District, which is financially autonomous with a separately elected Board, nor is the District a component unit. The District has no component units as defined by the GASB.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Basis of Presentation

The accompanying financial statements are presented per GASB No. 34.

The government-wide financial statements (i.e. the statement of net position) report information on all of the nonfiduciary activities of the District. *Governmental activities*, which are normally supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. For the most part, the effect of interfund activity has been removed from these statements.

The statement of net position reports all financial and capital resources of the District. The difference between the (a) assets and deferred outflows of resources and the (b) liabilities and deferred inflows of resources of the District is reported as net position.

Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow. Property taxes are recognized as revenues in the year for which they are collected.

Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received.

The District reports the following major proprietary fund:

Proprietary Fund - The Proprietary Fund accounts for operations that are financed and operated in a manner similar to private business enterprises, where the intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's ongoing operations. Operating revenues consist of charges to customers for services provided. Operating expenses for proprietary funds include the cost of services, administrative expenses, and depreciation of assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses or capital contributions.

Budgetary Accounting

Budgets are adopted on a non-GAAP basis for the governmental funds. In accordance with the Local Government Budget Law of Colorado, the District's Board of Directors holds public hearings in the fall of each year to approve the budget and appropriate the funds for the ensuing year. The District's Board of Directors can modify the budget by line item without notification. The appropriation can only be modified upon completion of notification and publication requirements. The appropriation is at the total fund expenditures level and lapses at year end.

Statement of Cash Flows

For purposes of the statement of cash flows, the District considers cash deposits with a maturity of six months or less to be cash equivalents. During 2015, the District incurred no noncash activities.

Assets, liabilities, and Net Position:

Fair Value of Financial Instruments

The District's financial instruments include cash and cash equivalents, accounts receivable and accounts payable. The District estimates that the fair value of all financial instruments at December 31, 2015 does not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying balance sheet. The carrying amount of these financial instruments approximates fair value because of the short maturity of these instruments.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand and short-term investments with maturities of three months or less from the date of acquisition. Investments for the government are reported at fair value.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

The District follows the practice of pooling cash and investments to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a minimum number of bank accounts. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility.

Estimates

The preparation of these financial statements in conformity with GAAP requires the District management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District only has one item that qualifies for reporting in this category. It is the deferred loss on refunding reported in the government-wide statement of net position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one type of item that qualifies for reporting in this category. Deferred property taxes are deferred and recognized as an inflow of resources in the period that the amounts become available.

Long-Term Obligations

In the government-wide financial statements, and for proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of any bond premium or discount where applicable.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Original Issue Discount and Prepaid Debt Insurance

Original issue discount and prepaid debt insurance from the Series 2006A Bonds are being amortized over the respective terms of the bonds using the interest/straight-line method. Accumulated amortization of original issue discount and prepaid debt insurance amounted to \$8,357 and \$106,923 respectively at December 31, 2015.

Deferred Loss on Bond Refunding

The deferred Loss on bond refunding is being amortized using the straight-line method over the life of the defeased bonds.

Property Tax

Property taxes are levied by the District Board of Directors. The levy is based on assessed valuations determined by the County Assessors generally as of January 1 of each year. The levy is normally set during December by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of each year. The County Treasurers collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayers' election, in February and June. Delinquent taxpayers are notified in July and tax sales are in November. The County Treasurers remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows in the year they are levied and measurable since they are not normally available nor are they budgeted as a resource until the subsequent year. The deferred property taxes are recorded as revenue in the subsequent year when they are available or collected.

Property owners within the boundaries of the District have been assessed \$1,828,507 and \$1,773,555 for 2015 and 2014, respectively. Since these taxes are not normally available to the District until the following year, they are classified as deferred income.

Water Rights

The cost of water rights includes acquisition cost, legal and engineering costs related to the development and augmentation of those rights. Since the rights have a perpetual life, they are not amortized. All other costs, including costs incurred for the protection of those rights, are expensed.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Capital Contributions

Tap fees are recorded as capital contributions when received by the District. Inclusion fees are recorded as capital contributions when inclusion is accepted by the District. Acreage fees represent system development charges assessed on a pre-acre basis. They are recorded as capital contribution when received by the District (normally when property development begins).

Capital Assets

Capital assets, which include water and supply contract rights, land and easements, construction in progress, water system, effluent irrigation system, sewer system, storm drainage system, and equipment and vehicles, are reported by the District. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of the donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable using the straight-line method. Depreciation on property that will remain assets of the District is reported on the Statement of Activities as a current charge. Improvements that will be conveyed to other governmental entities are classified as construction in progress and are not depreciated. Land and certain landscaping improvements are not depreciated.

Improvements that are not completed and/or may be conveyed to other governmental entities are classified as construction in progress and are not depreciated.

Property, plant and equipment are depreciated using the straight-line method over the following estimated economic useful lives:

Water system	10-50 years
Effluent irrigation system	25-50 years
Sewer system	10-50 years
Storm drainage system	45-50 years
Equipment and vehicles	5 years

Compensated Absences

The District accrues vacation pay when earned. These amounts are included in other accrued liabilities on the statements of net position.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Fund Equity

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications make the nature and extent of the constraints placed on a government's fund balance more transparent:

Restricted Fund Balance

The restricted fund balance includes amounts restricted for a specific purpose by external parties such as grantors, bondholders, constitutional provisions or enabling legislation.

The restricted fund balance in the Proprietary Fund represents Emergency Reserves that have been provided as required by Article X, Section 20 of the Constitution of the State of Colorado. A total of \$82,296 of the Proprietary Fund balance has been restricted in compliance with this requirement. The amount is 3% of the total operating expenses less the depreciation.

Net Position

Net Position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The District reports three categories of net position, as follows:

Net investment in capital assets – consists of net capital assets, reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows or resources related to those assets.

Restricted net position – net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.

Unrestricted net position – consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District will use the most restrictive net position first.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Note 2: Cash and Investments:

As of December 31, 2015 and 2014, cash and investments are classified in the accompanying financial statements as follows:

	<u>2015</u>	<u>2014</u>
Statement of net position:		
Cash and cash equivalents - unrestricted	\$ 6,594,759	\$ 6,334,449

Cash and investments as of December 31, 2015 and 2014, consist of the following:

	<u>2015</u>	<u>2014</u>
Deposits with financial institutions	\$ 101,145	\$ 94,335
Investments - Colotrust	6,493,614	6,240,114
	<u>\$ 6,594,759</u>	<u>\$ 6,334,449</u>

Deposits:

Custodial credit risk

The Colorado Public Deposit Protection Act (“PDPA”) requires that all units of local government deposit cash in eligible public depositories. State regulators determine eligibility. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to the aggregate uninsured deposits. The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured depositories and assets maintained in the collateral pools.

The District follows state statutes for deposits. None of the District’s deposits were exposed to custodial credit risk.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Investments:

Credit Risk

The District's investment policy allows for the District to invest in local government investment pools following state statutes. Colorado statutes specify types of investments meeting defined rating and risk criteria in which local governments may invest. These investments include obligations of the United States and certain U.S. government agency entities, certain money markets funds, guaranteed investment contracts, and local government pools.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District adopted a policy to comply with State statutes governing deposits.

Interest rate risk

Colorado Revised Statutes and the District's investment policy limit investment maturities to 5 years or less from the date of purchase. This limit on investment maturities is a means of limiting exposure to fair values declines arising from increasing interest rates.

Concentration Risk

The District's investments are concentrated in local investment pools and other money market funds.

As of December 31, 2015 and 2014, the District had the following investments:

Colotrust

The local government investment pool, Colorado Local Government Liquid Asset Trust ("COLOTRUST") is rated AAAM by Standard & Poor's and the maturity is weighted average under 60 days. COLOTRUST is an investment trust/joint ventures established for local government entities in Colorado to pool surplus funds. The trusts operate similarly to a money market fund with each share maintaining a value of \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both investments consist of U.S. Treasury bills and notes and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. Designated custodian banks provide safekeeping and depository services to the trusts. Substantially all securities owned by the trusts are held by the Federal Reserve Bank in the accounts maintained for the custodian banks. The custodians' internal records identify the investments owned by COLOTRUST. At December 31, 2015 and 2014, the District had \$6,493,614 and \$6,240,114 invested in COLOTRUST respectively.

General Obligation Bonds, Series 2006A:

On June 2, 2006, the District authorized the issuance of General Obligation Bonds, Series 2006A at \$17,000,000 consisting of \$14,000,000 of serial bonds due annually in varying amounts through December 1, 2019 with interest rates 4.0% through 5.0% payable June 1st and December 1st commencing on December 1, 2006 and \$3,000,000 in term bonds due December 1, 2019 with interest at 4.6%. The term bonds are subject to mandatory sinking fund redemption beginning December 1, 2010. The term bonds are subject to redemption prior to maturity on December 1, 2009 and on any date thereafter at par. Serial bonds maturing on and after December 1, 2017 are subject to redemption prior to maturity on December 1, 2016 and in any date thereafter at par. In 2014, the District redeemed an additional \$2,365,000 of principal.

Repayment of principal and interest was insured by Radian Asset Assurance, Inc. ("Radian"). As of April 1, 2015, Radian was acquired by Assured Guaranty Corp. ("AGC"). AGC has assumed all of Radian's insurance policies. Therefore all outstanding bonds insured by Radian will now carry AGC's Moody's rating of A3.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

A portion of the net proceeds of the Series 2006A Bonds were used to advance refund \$5,035,000 of the District's General Obligation Bonds, Series 1996. The defeased bonds were not considered a liability of the District since sufficient funds (\$5,052,952) were deposited with a trustee and invested for the purpose of paying the principal and interest of the defeased bonds when due on December 1, 2007. The District reduced its aggregate debt service payments by \$179,143 over the next 10 years and obtained an economic gain (difference between the present values of the old and new debt service payments) of \$151,901. The District incurred a cost on refunding in the amount of \$55,505, which has been deferred and is being amortized over the life of the old debt.

General Obligation Refunding and Improvement Bonds, Series 2012:

In 2012, the District issued \$10,000,000 in General Obligation Refunding Bonds, Series 2012, (the "Bonds"), dated April 3, 2012. The proceeds were used to current refund the Series 2008 Bonds. The Bonds bear interest at a rate of 2.39% maturing December 1, 2022. The interest will be paid semi-annually on June 1st and December 1st commencing on December 1, 2012. The Bonds are subject to a mandatory sinking fund redemption commencing on December 1, 2013. The Bonds are secured by pledged revenues derived by the required mill levy on the property taxes allocated per the mill levy. The District realized a Net Present Value savings of \$1,732,135.

The Series 2012 Bonds maturing on December 1, 2025 shall be subject to redemption prior to maturity, in whole or in part, at the option of the District on any interest payment date at par with no redemption premium.

The following is a summary of the annual long-term debt principal and interest requirements for the Series 2006A Bonds:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$ 1,045,000	\$ 193,182	\$ 1,238,182
2017	1,090,000	148,770	1,238,770

	<u>\$ 8,685,000</u>	<u>\$ 1,090,199</u>	<u>\$ 9,775,199</u>

Loan with Colorado Water Conservation Board:

On May 22, 2014, the Colorado Water Conservation Board (“CWCB”) approved a total loan not to exceed \$4,908,600 with an interest rate of 2.75% for the District’s participation cost in Water Infrastructure and Supply Efficiency Project (“WISE”). The amount is evidenced in four promissory notes: 1) \$1,845,270 for the District’s share of the Western Pipeline; 2) \$1,181,700 for the District’s share of cost for Phase 1 infrastructure to be constructed by WISE; 3) \$1,427,130 for the District’s share of cost Phase 2 infrastructure to be constructed by WISE and 4) \$454,500 for the District’s share of cost of a use of pipeline. This loan is pledged by an ad valorem property tax revenue. The principal and interest shall be payable in equal installments with the first payment due one year from the date CWCB determines the projects are substantially complete. As of December 31, 2015 no funds were drawn from CWCB.

Note 5: Debt Authorization:

At elections held May 4, 2004 and November 1, 2005, a majority of the qualified electors of the District who voted in the elections authorized the issuance of general obligation indebtedness in an amount not to exceed \$15,000,000 for the purposes of the extension and improvements of the existing sanitary sewer system and \$20,000,000 for the extension and improvement of the existing potable and non-potable water supply, storage transmission and distribution system of the District, respectfully. After the issuance of the Series 2008 Bonds, the District has the authority to issue additional obligation for sanitary sewer purposes in the amount of \$3,154,400 from the May 2004 election and \$4,561,110 from the November 2005 election and will have the authority to issue additional obligations for water improvements in the amount of \$13,210,000 from the November 2005 election.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Note 6: Related Party Transactions:

All members of the Board of Directors of the District also serve on the Board of the Inverness Metropolitan Improvement District.

One member of the District's Board of Directors has an ownership interest in Inverness Properties LLC. During 2015 and 2014, the District paid \$121,365 and \$105,106 respectively, to Inverness Properties, LLC for administration and maintenance services.

Note 7: Agreements:

Wastewater Treatment Plant Relocation and Expansion

On April 19, 2005, the District entered into an agreement with Arapahoe County Water and Wastewater Authority ("ACWWA") and Arapahoe County Water and Wastewater Public Improvement District ("PID") to expand the existing Lone Tree Creek Wastewater Treatment Plant ("WWTP"). Included in the project were the Inverness Pipeline Improvements, which are comprised of the Inverness Lift Station, a collection system to WWTP, and an effluent return pipeline to Inverness. ACWWA as manager of the PID contracted for the design and construction of the WWTP Expansion including the effluent pump station. The District contracted the design and construction of the Inverness Pipeline Improvements. Capital costs to construct to WWTP were based on each party's share of capacity of the new facility, and capital costs to construct the Inverness Pipeline Improvements were funded entirely by the District. The WWTP Expansion is to provide a total treatment capacity of 3.6 million gallons per day with the District's capacity at 1.1 million gallons per day. The District's total costs for the project were \$14.55 million. Final costs and cost sharing was determined based on the District's pro rata share of the total capacity. The WWTP was completed in early 2009 and the District began sending flows in July 2009.

Excluded Properties

The District has excluded approximately 80 acres under various agreements dated between 2005 and 2014. The District will continue to provide facilities, services and programs to these properties in the same manner and to the same extent as the properties had received prior to the exclusion. These property owners are obligated to pay debt service property taxes for debt existing prior to the exclusion and also pay a tax equivalency fee for debt service on bonds issued after the exclusion.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Arapahoe County Water and Wastewater Authority (“ACWWA”)

The District has an agreement with ACWWA to provide wastewater treatment for Inverness at Lone Tree Creek Water Reclamation Facility (“LTCWRF”). The District purchased capacity in the LTCWRF with the intent to accommodate all future wastewater treatment for Inverness, including disposal of the District’s sewage. The LTCWRF is intended to replace the District’s Wastewater Treatment Plant and its Advanced Wastewater Treatment Plant. The District’s Wastewater Treatment Plant and its Advanced Wastewater Treatment Plant are currently idle.

On September 30, 2011, the District and ACWWA reached an agreement on the rates to be charged to the District. Prior to the agreement, the District was charged \$5.37 per 1,000 gallons for treatment of wastewater. The agreement calls for an initial rate of \$4.24 per 1,000 gallons for treatment of wastewater. Pursuant to the Agreement, a reserve for the purpose of capital asset replacement of the treatment plant is to be established containing the annual payment by the District in the amount of \$132,384 as well as an annual contribution of \$300,949 each year by ACWWA until a maximum reserve amount of \$7,500,000 is attained. The reserve will be controlled by ACWWA. The District’s share of the reserve is recorded on the Statement of Net Position. As of December 31, 2015 and December 31, 2014, the District had a balance of \$775,758 and \$715,158, respectively, in the reserve.

In 2014, the District and ACWWA entered into a Tolling Agreement due to certain disputes including 1) the rates charged for the treatment of wastewater; 2) the proper use of the reserve account held by ACWWA; 3) allocation of costs related to a spill in 2013; 4) interpretation of the Amended IGA and 5) operational disputes. The parties do not wish to file suit, therefore, this agreement allows the parties to continue negotiations. In 2015, The District and ACWWA agreed in a settlement in which both parties have agreed to release each other from the disputed items before mentioned.

Note 8: Investments in Authorities:

South Metro WISE Authority (the “Authority”)

The District has an interest in reducing its reliance on non-renewable water sources, therefore is a member of the Authority. The Authority is developing infrastructure to provide water from renewable surface water supplies. In 2015 and 2014, the District paid \$557,354 and \$2,237,444, respectively for its share of various projects. In 2015, the District entered into an agreement with Rangeview Metropolitan District, (“Rangeview”). Rangeview has agreed to pay \$189,370 in three installments in 2015, 2016 and 2017 for 0.59% interest in the District’s share of the pipeline capacity constructed through WISE Project. The District received \$189,370 in 2015.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

South Metro Water Supply Authority – Barr Lake Pipeline Enlargement

On March 25, 2005, the South Metro Water Supply Authority (“South Metro Authority”), of which the District is a member, entered into an agreement with East Cherry Creek Valley Water and Sanitation District (“ECCV”) to participate in the over sizing of the ECCV Barr Lake Pipeline, the South Metro Authority members agreed to contribute a total amount of \$6,927,600 to ECCV. The District’s share of this amount is \$732,200 which was based upon a future use of 0.7 million gallons per day capacity of 6.0 million gallons per day. However, the District will receive no water from this pipeline until future connecting lines have been built and the South Metro Authority is able to obtain water rights necessary to place water in the line. Since December 31, 2005, the District has paid \$732,200 to the South Metro Authority. There were no additional capital contributions during 2015 and 2014.

Cherry Creek Project Water Authority

On October 14, 2005, the District entered into a Water Project Agreement and created the Cherry Creek Project Water Authority (“Cherry Creek Authority”) with Arapahoe County Water and Wastewater Authority (“ACWWA”), Denver Southeast Suburban Water and Sanitation District (“Pinery”), and Cottonwood Water and Sanitation District (“Cottonwood”). On November 17, 2005, the Cherry Creek Authority purchased certain water rights, well rights, facilities and storage rights at a bankruptcy action for \$14,000,000 plus closing costs. These assets were previously owned by Western Water Company. Of this amount, the District paid \$6,011,489 representing an interest of 40% in the Cherry Creek Authority. The District contributed \$655,286 during 2006 for the Cherry Creek Authority’s purchase of additional water rights and operating costs. The District is also responsible for contributing to the operating costs of the Cherry Creek Authority. As of December 31, 2015, the District held a 31.118% interest in the Cherry Creek Authority. For a copy of the Cherry Creek Authority’s financial statements, contact Cherry Creek Authority at (303) 799-9595. As of December 31, 2015 and 2014, the District’s interest totaled \$5,658,826 and \$5,534,354 respectively.

Note 9: Deferred Compensation Plan:

The District has a deferred compensation plan created in accordance with Internal Revenue Code Section 457. This plan is administered by Great West Life Assurance Co. Participation in the plan is mandatory for all employees. The plan allows the employees to defer a portion of their salary until future years. The plan assets are owned by the District employees and are not reflected in these financial statements.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Note 10: Operating Lease:

In 2011, the District entered into an Operating Lease (“lease”) with Zion’s Credit Corporation for a solar panel system installed within the District’s boundaries. The monthly payment is \$1,554. This is an annual lease and will renew automatically unless certain events occur. The District has an option to purchase the equipment at fair market value. The District is responsible for all operations and maintenance and repair costs. In 2015, the District paid \$24,704 for the total lease payments. The District received \$49,907 in solar revenue from the electric provider.

Note 11: Tax Spending and Debt Limitations:

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer Bill of Rights (“TABOR”), contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Enterprises, defined as government-owned business authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR. The District’s management believes a significant portion of its operations qualifies for this exclusion.

Spending and revenue limits are determined based on the prior year’s Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The District’s management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.

On November 1, 2005, a majority of the District’s electors authorized the District to collect and spend or retain in a reserve all currently levied taxes and fees of the District without regard to any limitations under Article X, Section 20 of the Colorado Constitution.

INVERNESS WATER AND SANITATION DISTRICT

Notes to Financial Statements
December 31, 2015 and 2014

Note 12: Risk Management:

Except as provided in the Colorado Governmental Immunity Act, 24-10-101, et seq., CRS, the District may be exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets; errors or omissions; injuries to agents; and natural disasters. The District has elected to participate in the Colorado Special Districts Property and Liability Pool ("Pool") which is an organization created by intergovernmental agreement to provide common liability and casualty insurance coverage to its members at a cost that is considered economically appropriate. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for auto, public officials' liability, and property and general liability coverage. In the event aggregated losses incurred by the Pool exceed its amounts recoverable from reinsurance contracts and its accumulated reserves, the District may be called upon to make additional contributions to the Pool on the basis proportionate to other members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.
