About Us

Faucets Technology

Disc Fitting

The heart of every faucet, the cartridge is responsible for controlling water supply.

Aerator

Devices that mix air with water to give a soft and splash- free flow

- Our integrated honeycomb structured aerator provided lime buildup protection.

- integrated anti-clogging dome screen of the aerator filter sediments dust particles.

Chrome Finish

- Upper shiny protection layer provided a mirror finish to every faucet.

- High plating thickness (Nickel : 10 microns and Chrome : 0.3 microns) provides tolerance to extreme climate and water condition.

- 450+ hours of salt spray test makes our Finishes durable and corrosion resistant.

About Us

WHEN DESIGN AND TECHNOLOGY MEET. THAT IS AARUSH

Made in AARUSH means that we retain control over every single stage, from the casting of the raw material through to the electroplating and the finishing accessories. Here, highly accurate computer controlled production steps

alternate with careful hand craftsmanship. Ultimately, the decision whether the finishing accessories meet Us our quality standard is still made by a real person with a wealth of experience.
