COMPANY OVERVIEW: Marquee Machining & Engineering, LLC is an Indiana-based, Service-Disabled Veteran-Owned Small Business (SDVOSB) specializing in precision CNC machining, engineering design, and full CAD/CAM services. With 26+ years of experience in manufacturing, CNC programming, mold making, and complex project execution, we deliver high-quality prototypes, custom tooling, fixtures, and small-to-medium production runs for the medical / orthopedic, aerospace, and precision engineering sectors. Our clean, debt-free 595 sq ft facility allows us to offer competitive pricing and fast turnaround while maintaining strict attention to quality and customer requirements.

CORE CAPABILITIES

- Precision 3-Axis CNC Milling
- Prototype & First Article Parts
- Custom Tooling, Fixturing & Test Fixtures
- Medical Device Components & Orthopedic Instrumentation
- Aerospace Structural & Reinforcement Parts
- Plastic Injection Mold Cavities & Components
- Design-Build / Reverse Engineering Projects
- Full Turn-Key Solutions: Design → Programming → Machining

EQUIPMENT & SOFTWARE

- 2018 Haas DM-1 CNC Mill (40-taper, high-speed)
Travels: 20" X × 16" Y × 15.5" Z — ideal for tight-tolerance medical and aerospace work
- CAD/CAM Software
 - Autodesk Fusion 360 – Active annual license
 - OneCNC Mill Advantage v10 – Full CAD/CAM system
 - Extensive CATIA, SolidWorks, and G-code post-processing experience

PAST PERFORMANCE

- Designed and machined 2-cavity plastic injection molds for medical device manufacturing

- Produced prototype hip pin sets (8 sets) complete with installation tooling
- Manufactured commercial aerospace cargo door reinforcement components with full failure testing and custom fixturing
- Multiple complex prototype and short-run production jobs across medical, aerospace, and automotive industries
- Former owner/operator of a full-service CNC machining and mold manufacturing business

Military Background: U.S. Army Reserve, 44E Machinist (1981–1987)

NAICS CODES332710 – Machine Shops
