

Serving your institution's diverse needs, simply and seamlessly

Digital Commons™ is a state-of-the-art publishing and institutional repository platform designed to increase exposure and impact for scholarship

Over 500 institutions worldwide use Digital Commons

With reliable, on-demand readership metrics, you see global impact in real time.

It serves as a comprehensive solution for journals, books and conferences.

It offers tools to manage and showcase the full spectrum of scholarships.

Tools can cover datasets, multimedia, technical reports, theses, special collections, and much more.

It is optimized for search engines, which means increased impact and citations for faculty.

Want stakeholders to fall in love with the library?

Offer the services that prove just how much their research matters. Learn how custom services can support your institution.
