### What Happens Next?

- 1 Our licensed, local plumber in your area will call you shortly to discuss product options and pricing.
- 2 Be prepared to provide information like the size of your current unit and where it's located. It may be helpful to take a picture of your current water heater and rating plate for reference during your call. If you're not sure, that's okay!
- 3 We'll schedule your installation appointment if you're ready to move forward.
- 4 During your appointment, we'll install your new water heater and remove the old unit.

The contractor who calls you may ask you several additional questions, such as:

- Gallon capacity of your water heater
- Height of heater
- Breaker size –they will send someone to find out, if you don't know
