

Welcome Parents of SPCA
Sure Promise Christian Academy

Greetings,

I am Dr. Oliver L. Pittman Sr., welcoming you to our Christian Academy. We are so glad that you have made the choice to let your child grow and learn in a very safe and Spirit filled environment. At SPCA your child will be challenged academically and spiritually to reach his or her fullest potential striving in Excellence. We are proud of the staff that God has sent to our academy to instruct and mentor your child. We already have some of the best staff that the county has to offer, who are passionate about the purpose of education and in the broad sense of getting your child ready to be competitive in the global market, and to meet the demands of science and technology in the age to come. The staff also will encourage each student to have and understanding about his or her spirituality in Christ. Our focus is teaching your child to strive for excellence in a friendly Christ centered and safe environment. Therefore, we already have made the investment in construction for an additional facility to start in a few days. We have also invested in some of the best technology for the classroom to give our students the advantage. Finally, we look forward to the coming school year of fun while your child learns and grows and the relationships we build with them and you in the process. Open house will be held some time before the start of the next school year. So, let us prepare to have a super School year! As the Chief Administrator of our academy, I stand ready for any of your concerns as we move forward working together.

Sincerely Yours,

Dr. Oliver L. Pittman Sr.

Oliver L. Pittman Sr.
Superintendent/Interim Principal
