

CAPABILITY STATEMENT

LSTEELE NETWORK CONSULTANTS, LLC

We consult and troubleshoot computer & network issues

CAGE: 9L4B8 DUNS: 124238702 SAM: SL3CVSKK3FB5

Core Competencies

- Identify, troubleshoot and resolve faults in computer systems and networks
- Install and configure cisco networks using cisco switches and routers
- Create and maintain documentation that reflects the current state of the network
- Backup and restore network configurations
- Troubleshoot and repair ethernet data cable

Past Performance

36 years of experience troubleshooting and resolving network issues on Grady Health System's large hospital network hosting 4 data centers, fiber connected local campus buildings, 125 data closets & multiple dual-homed remote clinics.

Differentiators

Hands on experience configuring Citrix Netscalers to Load Balance critical network applications requiring high availability & Global Server Load Balance those same applications across multiple data centers.

Hands on experience configuring wireless networks on Cisco Wireless Lan Controllers supporting 1000 plus Access Points.

Company Data

In April 2021, Lsteele Network Consultants began as a Sole Proprietor business providing computer & networking support to residential clients.

In Jan 2023, we registered with the GA Secretary of State as Lsteele Network Consultants, LLC and are now pursuing commercial sub-contracting opportunities.
