

**CPR PARTNERS**  
CULTURE PERFORMANCE REPUTATION

## Corporate Culture Services

**Manage new culture and corporate governance standards set by the Royal Banking Commission Report (Feb 2019) and APRA Report into CBA (May 2018)**

- Graeme Samuel said "the Royal Banking Commission Report should act as a wake up call for all Australian organisations" regarding governance and culture and "Kenneth Hayne has a message for every boardroom" Feb 2019
- The APRA report into CBA has been described as the new Australian bible for corporate governance and Treasurer Scott Morrison said it should be "required reading for every board member in the country."

Has your organisation assessed their compliance with these standards set in the corporate governance and culture sections of the reports?

Doing nothing is a high risk strategy considering the recent issues involving NAB, CBA, AMP, Cricket Australia & #metoo

Weaknesses in key areas can restrict information flow inhibiting effective decision making - negatively impacting culture & performance
