

Data Transformation Lifecycle & Framework

Data Vision

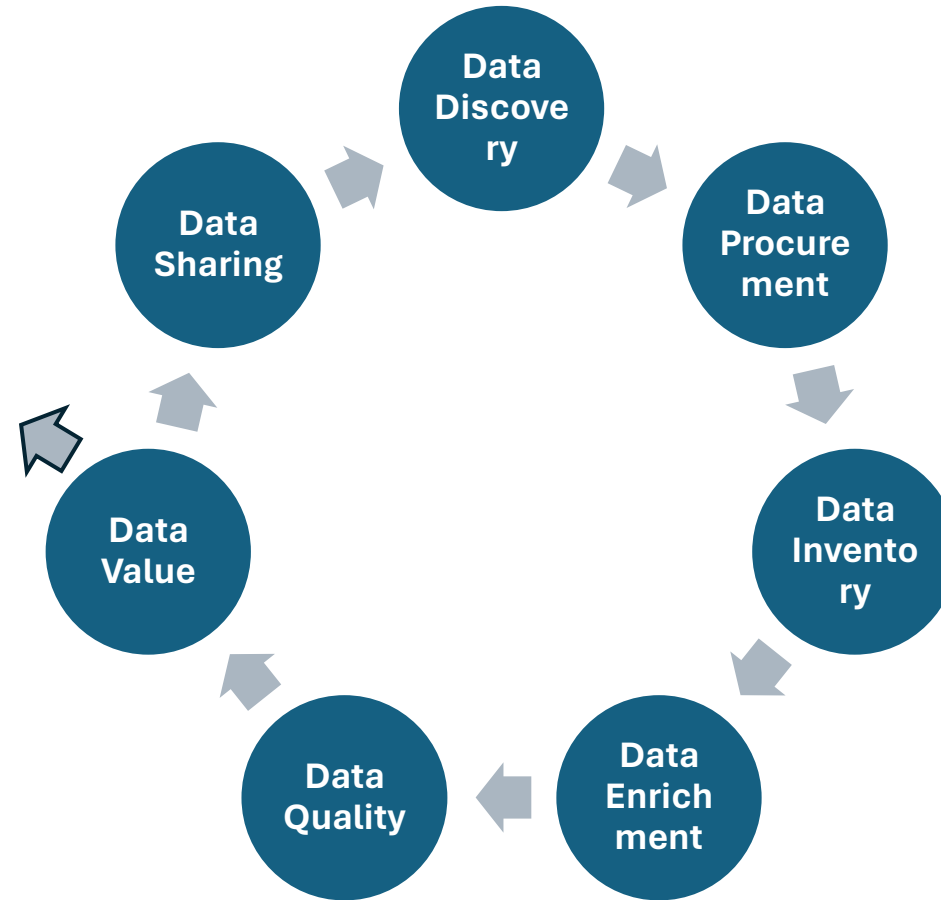

Data Strategy

Benefits (Triple Aim+)

- Better Patient Outcomes
- Better Patient Experience
- Better Population Health
- Reduce Costs
- Increase Revenue
- Commercialization opportunities

Data Harvesting (AI)

- Machine Learning (supervised & unsupervised)
- Generative AI
- Large Language Models
- Bots/Agents
- Workflows
- Analytics
- Visualizations

Data Strategy Components

- Program Management
- Change Management
- KPIs

People

- Data Customers (internal & external)
- Data Owners
- Data Stewards
- Data Team

Process

- Data Entry
- Data Protection (HIPPA, CCPA)
- Data Quality
- Data Reporting

Technology

- Data Sources (Epic)
- Data Lake
- Integrations
- Data Quality Tools
- Analytics & Visualization Tools
- AI/ML Tools

Data Governance

Data Management
