2. **On-Time Graduation Rate** – The on-time graduation rate for students who completed the program of study during the federal award year that began on July 1, 2012 and ended June 30, 2013 (“Award Year”). The rate is calculated by dividing the number of students who completed the program of study within the Normal Time (as defined below) during the Award Year by the total number of students who completed the program during the Award Year. “Normal Time” for:
- (i) an associate degree program of study is either 7, 8 or 9 consecutive academic quarters depending on the program⁽²⁾;
 - (ii) a bachelor degree program of study is either 14 or 15 consecutive academic quarters depending on the program⁽²⁾; and
 - (iii) a master’s degree program of study is 7 consecutive academic quarters⁽²⁾.

The Normal Time is not affected by any credits that a student may transfer into, or test out of, his or her program of study. The Normal Time of a new program of study to which a student transfers at the institution begins on the date that the student began attending the program of study at the institution from which he or she transferred.

The placement rate is calculated based on the methodology required by the Accrediting Council for Independent Colleges and Schools, which is ITT Technical Institute's accrediting agency. To calculate the placement rate, the total number of students who completed the program of study within the Placement Year and obtained employment by November 1 following the end of the Placement Year in a position that requires a direct or indirect use of skills taught in the program of study is divided by the total number of students who completed the program of study within the Placement Year, less those students who were unavailable for placement. Employment includes positions obtained prior to enrolling in the program of study, while enrolled in the program of study or after completing the program of study. Completers of the program of study who were unavailable for placement include those students who:

- were pregnant, died or suffered other health-related conditions that prevented them from working;
- continued their education;
- were engaged in active U.S. military service;
- moved out of the United States with a spouse or parent who was engaged in active military service;
- were incarcerated in a correctional institution (other than a half-way house) for more than 30 consecutive days; or
- possessed visas that did not permit them to work in the United States following completion.

The employment obtained by the students who completed the program is based on information reported to ITT Technical Institute by the students or their employers.

5. **Median Loan Debt** – The median loan debt incurred by students who completed the program of study during the Award Year includes the median amount of the Title IV Program loans and private education loans that ITT Technical Institute knows that those students received and the median amount that those students were obligated to repay under institutional financing plans upon completing the program of study, as follows:

- (1) For the purpose of disclosing the program of study information contained herein, the U.S. Department of Education's Dear Colleague Letter GEN-11-10 requires all programs of study that have the same six digit Classification of Institutional Program code and credential level to be combined and reported as one program.

Not all associate's degree programs of study are offered at all ITT Technical Institute locations. Not all ITT Technical Institute locations offer bachelor's degree programs of study and not all bachelor's degree programs of study are offered at all ITT Technical Institute locations that offer bachelor's degree programs. The master's degree program in business administration is an online program of study. Please refer to the Curricula section of the school catalog of the particular ITT Technical Institute location for a complete listing of the programs of study offered at that ITT Technical Institute location and the method of delivery for each of those programs (i.e., taught in residence at the ITT Technical Institute location, online over the Internet as a distance education program or partially in residence and partially online).

All online programs of study are offered through the ITT Technical Institute location at 9511 Angola Court, Indianapolis, IN 46268 (IN AC-0148 OH Reg. No 01-12-1614T).

The associate's and bachelor's degree programs of study in criminal justice may not qualify a graduate for a career in law enforcement involving employment as a police officer or agent by many federal, state, county, local or municipal authorities. An applicant must contact the applicable governmental authority prior to beginning a criminal justice program of study to determine if there are any specific requirements and/or qualifications that a candidate must satisfy to be eligible for employment as a police officer or agent by that authority. Those requirements and/or qualifications may include, among other things, that a candidate must: (a) successfully complete an academy or other specialized training; (b) be younger than a certain age; (c) pass a physical, mental and/or personality examination; (d) pass a background check; (e) not have a criminal record; (f) be a graduate from an institution that is regionally accredited (as opposed to nationally accredited, such as ITT Technical Institute); (g) complete a certain number of credit hours or a certain type of degree program at an accredited postsecondary educational institution; (h) have served a certain number of years in the military; (i) have a certain number of years of prior law enforcement experience; (j) be a U.S. citizen and/or a resident of the governmental authority's jurisdiction; (k) have earned a bachelor or graduate degree in certain areas of study; and/or (l) have a valid driver's license.

- (3) This is an estimate of the total tuition that will be charged for a student to complete the program of study within the Normal Time of that program of study. This assumes that the student will:
- begin the program of study in the Fall academic quarter in 2013;
 - take a full-time course load each academic quarter until the student graduates from the program of study, unless the number of credits required to graduate from the program in the student's last academic quarter of attendance is less than a full-time course load, in which case the student is assumed to take all of the courses containing all of the remaining credits required to graduate during that last academic quarter;
 - not transfer in, or test out of, any credits;
 - successfully complete each course in the program of study and make satisfactory academic progress through graduation from the program of study; and
 - take only those courses required to graduate from the program of study and not repeat, withdraw from or fail any of those courses.

The ITT Technical Institute may, at any time in its discretion, revise the curriculum content of the program of study or any course in the program of study and change the number of credit hours in the program of study or in any course in the program of study. The tuition for each program course that a student is registered to take from the ITT Technical Institute is determined by multiplying the tuition per credit hour by the number of credit hours in the program course. The tuition for each academic quarter in which a student is enrolled in a program of study offered by ITT Technical Institute is determined by multiplying the tuition per credit hour by the total number of credit hours in all of the program courses that the student is registered to take during the academic quarter. The tuition for the entire program of study in which a student is enrolled is determined by multiplying the tuition per credit hour by the total number of credit hours in all of the courses in that program of study. The tuition for all of the credit hours in all of the program courses that a student is registered to take from ITT Technical Institute during an academic quarter is due and payable by the student to ITT Technical Institute on the first day of that quarter. The ITT Technical Institute at most locations may, at any time and from time to time in its discretion, increase the tuition per credit hour charged to students for courses in any program of study offered by ITT Technical Institute by publishing the higher tuition per credit hour in the school catalog at least 60 days before the effective date of the increase. Please refer to the Tuition, Fees and Tools section of the school catalog of the particular ITT Technical Institute location for information regarding adjustments to the tuition per credit hour at that ITT Technical Institute location. A student will be obligated to pay ITT Technical Institute the higher tuition per credit hour with respect to any program course that (a) the student is registered to take from ITT Technical Institute and (b) begins after the effective date of the increase. Students should expect the school to increase, at least once during any calendar year, the tuition per credit hour charged for program courses offered by ITT Technical Institute. The estimated tuition assumes that a student will begin the program of study in the Fall academic quarter in 2013 and will take three courses in each of the:

- first through sixth academic quarters at the tuition per credit hour of \$493 for in residence programs and \$426 for online undergraduate programs and \$464 for online graduate programs;

- seventh through tenth academic quarters at the estimated tuition per credit hour of \$518 for in residence programs and \$447 for online undergraduate programs and \$487 for online graduate programs;
- eleventh through fourteenth academic quarters at the estimated tuition per credit hour of \$544 for in residence programs and \$469 for online undergraduate programs; and
- fifteenth academic quarter at the estimated tuition per credit hour of \$571 for in residence programs and \$492 for online undergraduate programs.

- (4) This is an estimate of the total fees that will be charged for a student to complete the program of study within the Normal Time of the program of study at most ITT Technical Institute locations. This assumes that the student does not withdraw from his or her program of study. The fees charged in each program as of July 1, 2013, at each ITT Technical Institute location are set forth in the following table:

Credential Level and Location	Type of Fee			
	Academic Fee	Administrative Fee	Student Tuition Recovery Fund ⁽⁵⁾	Total
<u>Associate's Degree Programs</u>				
All Locations, Except Those in CA, GA, NV and OH	\$200.00	\$100.00	\$ 0.00	\$300.00

<u>Master's Degree Programs</u>				
All Locations	\$200.00	\$100.00	\$ 0.00	\$300.00

The Academic Fee is due and payable by the student to ITT Technical Institute on the student's first day of recorded attendance in any program course following the student's enrollment in a program of study offered by ITT Technical Institute. The Administrative Fee is due and payable by the student to ITT Technical Institute immediately upon the termination of the student's enrollment in the program of study.

- (5) A STRF Fee is assessed against each student attending an ITT Technical Institute location in California each academic quarter, based on (a) the amount of tuition and any other fees charged to the student in that academic quarter and (b) the cost of any tools that the student purchases from ITT Technical Institute for any program course that the student is registered to take in that academic quarter. The amount of the STRF Fee is \$0.50 per \$1,000 of program costs (rounded to the nearest \$1,000) charged to the student in that academic quarter. The estimated amount of the STRF fee for each program is based on the same assumptions that were used to determine the cost of tuition, other fees and tools. The student will pay ITT Technical Institute the STRF Fee assessed against the student each quarter on the first day of scheduled instruction in any program course that the student is registered to take in that academic quarter.
- (6) This is an estimate of the cost, as of July 1, 2013, of the tools required for the program of study, if purchased from ITT Technical Institute. The actual use of, and instruction regarding, the tools in any program course may vary depending on the program course and any changes thereto, the faculty member teaching the program course and the student's progress in the program course. This amount assumes that the courses that the student chooses to take to satisfy any unspecified core course requirements in the

program of study do not require the purchase of any tools for use in those courses. The estimated cost of those tools is subject to change by ITT Technical Institute at any time. No student is obligated to purchase any tools from ITT Technical Institute. Any tools that a student purchases from ITT Technical Institute are unreturnable and the cost is nonrefundable, except as expressly specified in the Return of Tools section in the particular school catalog of the ITT Technical Institute location attended by the student. The cost of any tools that a student purchases from ITT Technical Institute is due and payable by the student to ITT Technical Institute upon the student's receipt of those tools.

N/A means not applicable.

N/G means there were no graduates of the program during the Award Year.

N/R/R means the Normal Time for the program of study had not expired during the Award Year, so there is no reportable rate.
