MODULE 6: PRESENTING THE FINAL ARGUMENT

COURSE LEARNING OBJECTIVES COVERED

- Apply peer review and editing techniques.
- Analyze, organize, and synthesize information from both primary and secondary sources.
- Apply standard writing conventions to research papers that evaluate the strengths, weaknesses, risks, and benefits of competing perspectives and complex problems.
- Make a presentation of research findings.

TOPICS COVERED

- Polishing Your Work
- Avoiding Common Errors
- Understanding Further Applications of Argument Analysis

MODULE LEARNING ACTIVITIES	GRADE D	OUT-OF- CLASS TIME
Reading: Wood, N. V., & Miller, J., Chapter 13 (pp. 421-428)	No	0.5 hr
Reading: ITT Tech Virtual Library> School of Study> General Education Information> Databases> ProQuest Newsstand> Fleshler, D., Clary, M., & East, G. (2012, May 19). Writing ability declines but still crucial for success. <i>McClatchy - Tribune Business News</i> .	No	0.5 hr
Lesson: Study the lesson for this module.	No	2 hr
Analysis: Submit the analysis titled "The Importance of Revision."	Yes	3 hr
Project: Submit Project Part 2.	Yes	4 hr

Total Out-Of-Class Activities: 10 Hours

EVALUATION AND GRADING**EVALUATION CRITERIA**

The graded assignments will be evaluated using the following weighted categories:

CATEGORY	WEIGHT
Analysis	35%
Exercise	15%
Discussion	15%
Project	15%
Research	20%
TOTAL	100%

GRADE CONVERSION

The final grades will be calculated from the percentages earned in the course, as follows:

GRADE	PERCENTAGE
A (4.0)	90–100%
B+ (3.5)	85–89%

INSTRUCTIONAL METHODS AND TEACHING STRATEGIES

The curriculum employs a variety of instructional methods that support the course objectives while fostering higher cognitive skills. These methods are designed to encourage and engage you in the learning process in order to maximize learning opportunities. The instructional methods include but are not limited to lectures, collaborative learning options, use of technology, and hands-on activities.

To implement the above-mentioned instructional methods, this course uses several teaching strategies, such as lessons. Your progress will be regularly assessed through a variety of assessment tools including analysis, exercises, discussions, project, and research.

OUT-OF-CLASS WORK

For purposes of defining an academic credit hour for Title IV funding purposes, ITT Technical Institute considers a quarter credit hour to be the equivalent of: (a) at least 10 clock hours of classroom activities and at least 20 clock hours of outside preparation; (b) at least 20 clock hours of laboratory activities; or (c) at least 30 clock hours of externship, practicum or clinical activities. ITT Technical Institute utilizes a “time-based option” for establishing out-of-class activities which would equate to two hours of out-of-class activities for every one hour of classroom time. The procedure for determining credit hours for Title IV funding purposes is to divide the total number of classroom, laboratory, externship, practicum and clinical hours by the conversion ratios specified above. A clock hour is 50 minutes.

A credit hour is an artificial measurement of the amount of learning that can occur in a program course based on a specified amount of time spent on class activities and student preparation during the program course. In conformity with commonly accepted practice in higher education, ITT Technical Institute has institutionally established and determined that credit hours awarded for coursework in this program course (including out-of-class assignments and learning activities described in the “Course Outline” section of this syllabus) are in accordance with the time-based option for awarding academic credit described in the immediately preceding paragraph.

ACADEMIC INTEGRITY

All students must comply with the policies that regulate all forms of academic dishonesty or academic misconduct. For more information on the academic honesty policies, refer to the Student Handbook and the School Catalog.
