

Alkydprimer QD

Product description

This is a one component oxidatively drying zinc phosphate reinforced alkyd coating. It is fast drying. Can be used as primer or mid coat in atmospheric environments. Suitable for properly prepared wooden, aluminium and carbon steel surfaces.

Typical use

Marine

Recommended for coastal vessels, topside, deck and superstructure.

Protective

Recommended for light industry environments, buildings and general structural steel.

Colours

red*, grey, light grey, black, green, white
*contains red oxide

Product data

Property	Test/Standard	Description
Solids by volume	ISO 3233	50 ± 2 %
Gloss level (GU 60 °)	ISO 2813	matt (0-35)
Flash point	ISO 3679 Method 1	29 °C
Density	calculated	1.3 kg/l
VOC-EU	IED (2010/75/EU) (theoretical)	407 g/l

The provided data is typical for factory produced products, subject to slight variation depending on colour. Gloss description: According to Jotun Performance Coatings' definition.

Film thickness per coat

Typical recommended specification range

Dry film thickness 30 - 50 μm Wet film thickness 60 - 100 μm Theoretical spreading rate 16.7 - 10 m^2/l

Date of issue: 12 October 2020 supplier: diskon@findotek.com Page: 1/4

Technical Data Sheet Alkydprimer QD

Surface preparation

To secure lasting adhesion to the subsequent product all surfaces shall be clean, dry and free from any contamination.

Surface preparation summary table

	Surface	Surface preparation		
Substrate	Minimum	Recommended		
Carbon steel	St 2 (ISO 8501-1)	Sa 2½ (ISO 8501-1)		
Aluminium	The surface shall be hand or machine abraded with non-metallic abrasives or bonded fibre machine or hand abrasive pads to impart a scratch pattern to the surface.	Abrasive blast cleaning to achieve a surface profile using non-metallic abrasive media which is suitable to achieve a sharp and angular surface profile.		
Wood	Clean and dry surface. Surface contamination is to be removed by detergents and fresh water cleaning.	Clean and dry surface. Surface contamination is to be removed by detergents and fresh water cleaning.		

Application

Application methods

The product can be applied by

Spray: Use air spray or airless spray.

Brush: Recommended for stripe coating and small areas, care must be taken to achieve the

specified dry film thickness.

Roller: May be used for small areas but is not recommended for first primer coat. However, when

using roller application care must be taken to apply sufficient material in order to achieve

the specified dry film thickness.

Product mixing

Single pack

Thinner/Cleaning solvent

Thinner: Jotun Thinner No. 2

Guiding data for airless spray

Nozzle tip (inch/1000): 15-21

Pressure at nozzle (minimum): 150 bar/2100 psi

Technical Data Sheet Alkydprimer QD

Drying and Curing time

Substrate temperature	5 °C	10 °C	23 °C	40 °C
Surface (touch) dry	1.5 h	1 h	45 min	30 min
Walk-on-dry	9 h	7 h	4 h	2 h
Dry to over coat, minimum	9 h	7 h	4 h	2 h

For maximum overcoating intervals, refer to the Application Guide (AG) for this product.

Drying and curing times are determined under controlled temperatures and relative humidity below 85 %, and at average of the DFT range for the product.

Surface (touch) dry: The state of drying when slight pressure with a finger does not leave an imprint or reveal tackiness.

Walk-on-dry: Minimum time before the coating can tolerate normal foot traffic without permanent marks, imprints or other physical damage.

Dry to over coat, minimum: The recommended shortest time before the next coat can be applied.

Heat resistance

Temperature

	Continuous	Peak	
Dry, atmospheric	90 °C	100 °C	

Peak temperature duration max. 1 hour.

The temperatures listed relate to retention of protective properties. Aesthetic properties may suffer at these temperatures.

Product compatibility

Depending on the actual exposure of the coating system, various primers and topcoats can be used in combination with this product. Some examples are shown below. Contact Jotun for specific system recommendation.

Previous coat: alkyd, epoxy

Subsequent coat: alkyd

Packaging (typical)

	Volume	Size of containers		
	(litres)	(litres)		
Alkydprimer QD	5 / 20	5 / 20		

Other pack sizes may be available on request.

The volume stated is for factory made colours. Note that local variants in pack size and filled volumes can vary due to local regulations.

Date of issue: 12 October 2020 supplier: diskon@findotek.com Page: 3/4

Storage

The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.

Shelf life at 23 °C

Alkydprimer QD

48 month(s)

In some markets commercial shelf life can be dictated shorter by local legislation. The above is minimum shelf life, thereafter the paint quality is subject to re-inspection.

Caution

This product is for professional use only. The applicators and operators shall be trained, experienced and have the capability and equipment to mix/stir and apply the coatings correctly and according to Jotun's technical documentation. Applicators and operators shall use appropriate personal protection equipment when using this product. This guideline is given based on the current knowledge of the product. Any suggested deviation to suit the site conditions shall be forwarded to the responsible Jotun representative for approval before commencing the work.

Health and safety

Please observe the precautionary notices displayed on the container. Use under well ventilated conditions. Do not inhale spray mist. Avoid skin contact. Spillage on the skin should immediately be removed with suitable cleanser, soap and water. Eyes should be well flushed with water and medical attention sought immediately.

Colour variation

When applicable, products primarily meant for use as primers or antifoulings may have slight colour variations from batch to batch. Such products may fade and chalk when exposed to sunlight and weathering.

Colour and gloss retention on topcoats/finish coats may vary depending on type of colour, exposure environment such as temperature, UV intensity etc., and application quality. Contact your local Jotun office for further information.
