**Technical data Sheet, TDS**

## **GREEN CLEAN GC- 5050** **DEFOAMER 5050**

**DEFOAMER 5050** is active defoamer emulsion which developed for pulp mill specially in washing operation or other process where foam appear too much.

**DEFOAMER 5050** is more efficient than conventional defoamer, reduced additive to the system and also reduced pitch problem.

**DEFOAMER 5050** is good dispensability product and very environmental friendly because of inert reaction with chlor in bleaching stage as a DBD and DBF precursor.

### **PRODUCT PROPERTIES**

Appearance	: Milky white emulsion
Chemical Composition	: Emulsion of silfoam
Ionic Character	: Non Ionic
Specific Gravity	: $1.01 \pm 0.05$ g/ml

### **APPLICATIONS**

Added into system by dosing pump, the optimum quantity and addition are determined by trial.

**PACKING** : In plastic Jerrican 25 kgs, 30 kgs, and drum 200 kgs.

**STORAGE** : Store in cool place and avoid exposure under sunlight.
