Tournament Operations is run by a great group of people powered by **PickleballTournaments.com**. This is the group on Day 1 (I don't think we'll take a pic of them on Day 7). Meet the Hanlon Family

Hanlon Family (l to r) Joshua (27), Noah (24), Christy (mom), Tim (dad) Noah's twin sister - Nicole (24) and John (28).

Playing in their first US OPEN are the Hanlon Family, mom and dad and 4 of their 5 kids that play. They drove in from Osceola, IN for one of many family trips together. When the kids were younger, they visited every state in the US, now their travels include Pickleball Tournaments. In case you never heard of Osceola, it is a town in Northern Indiana of roughly 3000 people.

Jim, Tim's brother-in-law introduced them to the game and they have all been playing for about 2 1/2 years. They were looking for something to keep them active during covid, so after becoming intrigued with the game, they lined their driveway of their house and started playing every day. One other son Nicholas (30) and his wife, Lindsey and their grandson Hudson (5) also play but did not make the trip with them.

I tried to get the scoop on who has a temper, who is the easiest to get riled up, etc. but mom said they all get along and cheer each other on. Meeting all of them today, I can see that is true. They make you feel like a part of their family. They smile, they joke, they laugh, they have fun and they love pickleball. In fact the oldest John, keeps them all organized for tournaments, playing (he has schedules for them) and their travels. But mom did say she is the worst and Nicole is the best player (not sure the boys agreed...).

An interesting fact. They said everyone loves their shirt and wishes to buy one off them. They said no, it is their family shirt. (I know I tried). They are even sponsored, by their kids businesses. **Noah's Stump Grinding** business and Joshua and John's **Beyond the Brink** whereby they interview professional and everyday LEGO Builders. In fact they have 1 million youtube followers and over 3 million Facebook followers where they showcase amazing Lego creations from around the world. (I just became a follower)
