

# CRISIS PREVENTION INTERVENTION (CPI) TRAINING

CPI training equips healthcare workers, first responders, teachers, security personnel, and behavioral health workers with the skills to identify, prevent, and de-escalate workplace crises. The training is structured into distinct levels, offering solutions for every role and risk level within an organization.

- **Verbal Intervention Training**

This course instills self-assurance and equips individuals with skills to de-escalate disorderly conduct verbally.

- **Nonviolent Crisis Intervention**

This course teaches individuals the skills needed to identify and respond to ordinary crisis safely situations, including safe disengagements and preventive interventions.

- **NCI With Advanced Physical Skills**

This comprehensive course includes advanced physical skills alongside verbal intervention and NCI components.

Join us to enhance your crisis prevention and intervention skills, ensuring a safer and more responsive workplace.
