BigRoot® Grafted Grapevines

BigRoot® Grafted Grapevines are grown in our nursery for a year, field grafted and then grown for an additional year. The result is a grapevine with strong graft unions, strong roots and come ready for planting in your field.

GRAPES

Red Wine Grape Selections
White Wine Grape Selections
Black Table Grapes
Green Table Grapes
Red Table Grapes
Green Raisin Grapes
Root Stocks Selections

We will custom graft rootstocks to fulfill your planting needs. We are not limited to the varieties shown in this brochure. Here at Far Western Nurseries, we grow our rootstocks for one full season; the following spring they are field-grafted and grown for a second season. Our grafted vines are fast-growing with strong graft unions and roots, which is why we call out 2 year-old grafted vines "BigRoot[®]".

WALNUTS

Chandler
Ivanhoe
Tulare
Paradox Rootstock

Walnuts

Variety	Leaf	Clone	Bearing & Yield	Harvest	Net Wt (g)	Shell	Kernal Wt	% Kernal	Kernal	Pollinizers	Notes
Chandler	4/4	Moderate to Vigorous	Lateral bearing, strong yield	10/08		Oval smooth, light color, thin shell, becomes stronger in older trees	6.5	49	Extra light color, easy removal in halves, not well filled	Cisco, Franquette, Fernette	Most common variety, excellent color and halve, fewer pest problems, but relatively late harvest
Ivanhoe	3/17	Fairly small to moderate tree	Lateral bearing, strong yield, very precocious	9/13	12.8	Smooth, thin shell	7.3	57	Extra light color, easy removal	Payne, Serr	Not resistant to blight, very early harvest date with excellent color, female bloom before catkins recommended for San Joaquin Valley
Tulare	4/1	Upright, vigorous	Lateral bearing, strong yield	9/28	14.1	Medium texture & strength	7.6	53	Light color, good fill	Often planted with no pollinizer	Vigorous growth, good mid-season yield, upright canopy, susceptible to fall & winter cold temperatures

We will custom graft rootstocks to fulfill your planting needs. We are not limited to the varieties shown in this brochure. Here at Far Western Nurseries, we grow our rootstocks for one full season; the following spring they are field-grafted and grown for a second season.
