

Dennis Deliberations ... Ring # 170, Assembly #99

“The Bev and Alouise Bergeron Ring”

This is a routine from the 16th and next to the last Copperfield special,
“Unexplained Forces” (1995-30 years ago!).

In honor of this upcoming Halloween, enjoy again the finest 12 minute multiphase
“spook cabinet” routine!

I presented my hour lecture at the Magic History Conference here in Orlando on the History of the Asrah Stage Illusion. I displayed the props, which I made, for the Asrah and did a Power Point presentation.

Dan Stapleton and Ray Eden did a fabulous job of organizing and presenting.

The magic history conference one of the lowest cost magic events and is always informative and enjoyable.

Belgium born illusionist, Searval Le Roy had his prototype version in 1903 in at the Circle Theater in New York without an audience.

The idea took about 3 years to become workable.
