Greetings All!

Summer Edition Newsletter

Welcome to the summer edition of our newsletter, where the only thing hotter than the weather is our news—it's so hot, it's making the sun sweat! I am hoping that the heat will take a chill pill soon! We've got some fantastic events lined up that you won't want to miss. First up, the RC Willys Car Show in Henderson on September 7th. It's free, so no excuses! Then, mark your calendars for the Cadence Car Show on October 13th. It's always a blast, and fingers crossed, we'll see some Model A's this year. We've got a nice, shaded spot, so no melting allowed! Even if you can't bring your car, come out and say hello. On October 20th, we're heading to Spring Mountain Ranch State Park for the Model A Club's Picnic. It's a hoot! They've asked us to bring a covered dish and provide the main course. Let's aim to outnumber the Model A's with our Model T's this year. And as always don't forget your great auction items!

And don't forget, our SNMTC Annual Christmas Party will be at Dean's Place on December 7th from 4 to 7 PM. The next few meetings will be all about the menu. Bring a gift for the white elephant gift exchange – that's when the real fun begins!

Hope everyone is doing well and their Model T's are purring like kittens. See you at breakfast or meeting soon!

Safe travels,
President Tom

September 2024

Since it was too hot this afternoon to do much meaningful work outdoors (not to mention that it's 120 out!) I decided to go through some old literature I picked up at a swap meet last August.

In the mix of 1920's gas pumps and early tractor literature was this 1925 Montgomery Wards auto supply bargain book. Over the years I've picked up a few of these old period auto accessory catalogs. They all seemed to have one thing in common, a wealth of information on early cars and numerous accessories for the Model T Ford! Well, this catalog is no exception with Montgomery Wards offering full page ads for radiators, tires and batteries all dedicated to the ubiquitous Model T Ford! Even the back page couldn't help but throw in an ad for the Model T!

Yup, a nifty accessory catalog for the Accessory Corner!

Riversides Best
"I have been using your Riverside tires for years on my Ford car. They are the best tires I have ever had."
Henry E. Reichbach,
Fond du Lac, Wis.

Riversides Fine on Rev. Taylor's Sedan
"About a year ago I bought a pair of your Riverside tires for my car. They are the best tires I have ever had. They are very hard driving, much of it over the roughest country. They are very rough and now they are gone 10,000 miles, they appear good for another 5000 miles. The tire I am ordering is to be used to replace one of another make."
Rev. Andrew M. Taylor, Marlinton, Mich.

Not a Puncture
"I am using a pair of your Riverside tires on my car. I have had these tires over a year. They have held me over some bad miles and had not even a puncture."

Stronger Tire Chains

for All Cars
At Greatly Reduced Prices

Selling the finest quality Tire Chain direct to the users for less than the usual wholesale prices, has made Ward's a leader in this line. Our sales of tire chains are so great we can place orders for large quantities when market prices are favorable—and that is just what we do. You will find our prices very low. Surely this saving is worth a few minutes of your time to send us your order. If when comparing Ward's chains with any others, you should feel that the saving is not sufficiently large, remember that you are invited to return them and get your money back.

Road Grip Extra Heavy Tire Chains

These Road Grip Tire Chains are a great improvement over the usual standard type chains, as they have extra heavy, unusually large cross chains.

This larger surface is also easier on the tires and gives longer life to the whole chain. The cross chains are specially hardened which, combined with their oversize construction, means longer wear and greater safety.

Why Road Grip Chains Last Longer

We have tested all kinds of chains, and offer you the Road Grip as one of the best, longest wearing chains on the market, at a very low price. They are made of case hardened steel chain, which is far superior to the soft steel used in many chains selling near our prices.

All of our tire chains are full size, and are made extra large so they will fit either cord or fabric tires for the sizes mentioned. This is a feature not often found in other chains.

Radiators for Fords

Guaranteed to Satisfy You and Save You Money Too

Ford owners all over the U. S. are ordering these Radiators. And you, too, should never consider paying more for any other radiator for your Ford. We sell several thousand each week. So isn't it reasonable we should be able to give you better built radiators for less money than others who sell only a few?

This guaranteed radiator is built better and stronger than many radiators selling for several dollars more. It has heavy, seamless brass tanks at both top and bottom. Many other radiators have light weight steel tanks that rust out and break apart. Our radiators have rustproof bronze cores, with more tubes than are generally used in radiators of this type, which brings the water into contact with greater cooling surface.

30 Days Trial You can use this radiator 30 days to convince yourself that it will do all that can be expected from any radiator, regardless of price. You don't think a cent.

simply send to your order in the regular way, enclosing remittance. Put the radiator on your Ford and use it for 30 days. If at the end of that time you should feel for any reason that it is not equal in every way to any radiator on the market, return it and we will refund the purchase price and all transportation charges you have paid.

Guaranteed 18 Months We guarantee the core a full 18 months—a year and a half—against breakage caused by freezing. If freezing should rupture the core within 18 months, we will give you a new core. Shipping weight: Complete radiator, 35 pounds; without shell, 25 pounds. Not malleable.
